NOTICE TO PARENTS

The attention of parents is called to the law relating to the registering of births. The present requirements are as follows:

Chap. 29, Sec. 6, of the Revised Laws. Parents within forty days after the birth of a child * * * * shall cause notice thereof to be given to the clerk of the town or city in which such child is born.

Sec. 8. A parent * * * * who neglects so to do for ten days after the time limited therefor, * * * * shall forfeit not more than five dollars for each offense.

Attention of Physicians and Midwives is Called to Chapter 280, Sec. 1, Acts, of 1912

Section 1. Physicians and midwives shall, within forty-eight hours after the birth of every child in cases of which they were in charge, mail or deliver to the clerk or registrar of the city or town in which the birth occurred a notice stating the date and place of the birth, giving the street number, if any, the number of the ward in a city, and the family name. Failure to mail or deliver the said notice shall be punished by a fine not exceeding twenty-five dollars for each offense.

In accordance with the provisions of the law, the Town Clerk is prepared to furnish to parents, physicians, and midwives applying therefor, blanks for return of births as required by law.

TOWN OF NEEDHAM

ANNUAL REPORT

OF THE

BOARD OF SELECTMEN

FOR THE YEAR 1919

NEWTON
GARDEN CITY PRESS, INC.
1920

REPORT OF THE BOARD OF SELECTMEN

Included with the two hundred and eighth report of the Board of Selectmen are those of the heads of the Departments for which the Board is responsible, the Superintendent of Streets, Chief of Fire Department, Chief of Police, Superintendent of Fire Alarm, Inspectors of Buildings, of Wires, Sealer of Weights and Measures, Agent of Board of Health, Forest Warden, Town Accountant, and Superintendent of Moth Department. These appointees of the Board have rendered efficient and conscientious service to the town. During 1919 the Town appropriated the sum of $88,725 for the use of these departments and for special purposes.

Highways

General appropriation $21,000.

Special Great Plain Avenue, $1,500 and $3,000 from State and County.

Special High Rock Street, $21,000 the County to contribute one-third.

A detailed report of work done will be found in the Superintendent's report.

During the year, a section of Great Plain Avenue, has been built, the State and County each contributing $1,500 towards the cost. A section in the square on the south side of car tracks should be built in 1920.

A section of Warren Street was built completing this street from the Junction to May Street.

A section of Webster Street north from Hillside Avenue was built, the balance to Hurd's Corner should be done in 1920. A relocation of the section between Hillside and Highland Avenues has been made. This short section is in very bad condition, so narrow as to be dangerous, and the scene of a fatal accident at Foley's Crossing during the year. The Board urge the acceptance of this relocation and the appropriation of money to carry out the work.

Central Avenue is one of the oldest town roads. It runs from Cook's Bridge at Newton Upper Falls to Fisher's Bridge at Dover. It never was built to stand the wear and tear of the automobile traffic passing over it. The Highway and County Commissioners have been petitioned for sums to assist in rebuilding same.

During the past seven years the State and County have contributed $19,350 towards the rebuilding of "through routes."

South Street, another road along the outskirts, is in good condition from Charles River to Webster Street but the balance to Great Plain Avenue needs extensive repairs and a start should be made in 1920.

There are over forty-five miles of accepted streets which the town must keep safe and passable. The continued increase of motor cars and trucks makes the repairs expense greater every year. The labor and teaming costs have materially increased during the year (labor from $3 to $4 and teams from $6 to $9 per day), and at times the scarcity of labor has been a serious handicap.

There are several private ways having a number of houses on them that are always unsightly and at times almost impassable. The abuttors on Mayo and Greenwood Avenues and Otis Street have petitioned the Board to lay out and build these streets under the betterment act, Chapter 50 of the Revised Laws.

The equipment of the Highway Department will soon require the expenditure of a considerable sum. The steam roller purchased in 1901 must be replaced. A three or five ton truck would add to the efficiency of the department and be economical, considering the high cost of teams, and the time is not far distant when the town must collect the ashes and rubbish. A Ford truck was purchased for the use of the Superintendent. A suitable Municipal Building to house this and other departments' equipment should be provided in the near future.

The wisdom of leasing the Kingsbury Ledge on Central Avenue has been amply shown this year. The foundation for High Rock Street coming from here. The gravel bank on Webster Street purchased a few years ago is fast paying for itself.

High Rock Street

A contract was awarded to Matthew J. McGuinness of Dedham, the lowest of five bidders, to clear and sub-grade this street as laid out by the County Commissioners in their decree requiring the town to build same. E. Worthington of Dedham who laid out the street was engaged as engineer for this work. The Board voted to make a rock foundation with gravel surface. The contract was completed in October from Central Avenue to the railroad bridge. The rock foundation and gravel surfacing is nearly finished. Work will be resumed as soon as weather permits.

Drainage

No specific appropriation being available for this purpose, very little work could be done. Culverts were laid under Green and West Streets which will take care of the flow of water which has frequently washed out these streets. To relieve a serious condition caused by the construction of High Rock Street, a drain about one hundred and fifty feet was laid down Marked Tree Road while this street was torn up. The drain should be continued to the brook. The sum of $826.74 was expended this year. The town will be asked to reimburse the High Rock Street appropriation for this amount.

The culvert at Marked Tree Road should be lowered and the ditch towards Chestnut Street to correspond. This would relieve the land at the foot of Maple, Linden, Chestnut and Lincoln Streets. The water from Needham Square passes through this waterway. An appropriation should be made for this improvement.

The following appropriations are recommended for the Highway Department for 1920: —

Street cleaning	$4,000
Street repairs	6,000
Fencing	350
Drainage	500
General expenses	4,000
Road preservatives	7,000
Street construction	6,000
	$26,950

Sidewalks

$3,000 and the sum assessed under the betterment act.

This appropriation should be increased to $4,000. Property owners should be encouraged to petition for the construction of sidewalks under the betterment act by the provisions of which the town pays one-half the cost and the owner one-half, being allowed, on request, three years to make payment for same. The building of sidewalks is one of the easiest and most practical methods of improving the appearance of our town. The work done this year includes replacing the old plank walk on Webster Street between Norfolk and South Streets with gravel, granolithic on Bradford, May, Webster and Rosemary Street at Carter's Lower Mill, a granolithic crossing at Rosemary Street on east side of Highland Avenue making a continuous walk between the two villages. Tarvia has been applied to some gravel walks and it is hoped the experiment will be a success.

Start was made on a sidewalk on the lower end of Highland Avenue. When completed to Webster Street it will relieve a very serious situation for both autoists and pedestrians. Other outlying streets should have sidewalks at least on one side. Chestnut Street from railroad bridge to High Rock Street, Dedham Avenue from Bradford Street to South Street, Great Plain Avenue to Birds Hill, Marked Tree Road The autoists have received generous consideration in the way of good roads, the town can afford to give more attention to the safety and comfort of the pedestrians.

Street Lighting $9,000

Lights have been installed on Chestnut Road, Highland Avenue between May Street and Modern Garage, Highland Avenue near Newton line, Walnut Street, Gordon Terrace and Brookline Street (the abuttors paying for latter). The present contract with the Edison Electric Illuminating Co. expires in 1928. The system is on the "moonlight schedule" and lights are shut off at 12.30 A.M. There are 644 32-candle power lights and 28 600-candle power. The cost per light is about twelve dollars per year.

Board of Health $1,300

The Town voted to abolish the separate Board of Health, same to take effect in March 1920. The members of the old

Board resigned and the Board of Selectmen automatically became members of the Board of Health.

The Board voted to continue the excellent arrangement with the Co-operative Boards of Health and reappointed H. E. Berger, Jr., agent. His work has been satisfactory and efficient.

A new set of rules and regulations were adopted. The old ones were antiquated and incomplete. The Agent has had a successful year in reducing cases of contagious diseases.

The question of public dumps required much attention, the dump at the foot of Linden Street was closed. That at the corner of Cottage and Chestnut Streets has also been closed except for two mornings a week when a town employee acts as caretaker, burning all inflammable material, preventing dumping of garbage and making the place as inoffensive as such a place can be made. Court action was necessary where an individual dumped several barrels of decayed fruit and vegetables in spite of due warning and notification not to do so.

Permits to collect garbage have been refused to all except two, one at Needham and one at Needham Heights. Numerous justifiable complaints by householders caused the Board to strictly enforce this by-law. Two persistent offenders were summoned into court and fined. Householders will help abate this nuisance by reporting the collecting of garbage by unauthorized persons to the agent or police.

Piggeries were fast becoming a nuisance and menace to the public health and comfort. The Board has given the two largest operators within the residential limits until March 1st to discontinue keeping pigs in present locations. Frequent fining in court for hauling garbage through the streets without license does not prevent this nuisance. Thirty years ago when there were only 637 dwellings in town it was voted "that the Board of Health be instructed to prohibit the keeping of more than two swine on any one estate within one mile of either of the depots at Needham or Highlandville." The Board does not believe it unreasonable to extend this to the Birds Hill and Junction Stations making exception where there are no residences. There were 1,527 dwellings assessed in Needham in 1919.

The statutes permit a town to appropriate money for a Health nurse to act under the supervision of the Board of

Health, there is a bill before the legislature making it compulsory to employ one. We recommend that the town appropriate $600 for this purpose.

We recommend the sum of $1,900 be appropriated for the Board of Health.

Fire Department, $6,654

The Board reappointed H. Howard Upham, Chief of the Fire Department and A. R. Bowers and T. R. Quinlan Engineers of the Department.

The Department has lived up to its splendid record of efficiency during the year. The addition of another permanent man has strengthened the department.

The question of replacing horse-drawn apparatus with motor-drawn has almost become compulsory. The question of always having horses ready and the large expense involved in guaranteeing horses be kept within $\frac{3}{8}$ of a mile of the fire stations was a serious one. A special Town Meeting was called for Jan. 2d, 1920, to see if the Town would purchase a motor-driven pump to be located at the Heights. This will require some alterations to the station to accommodate the men and new heating apparatus.

The Town should take up the matter of building a Central Fire Station. The Board recommends the lot on the southwest corner of Highland Avenue and Rosemary Street as being well adapted and located. A Municipal Building erected here could house the Motor Combination, Motor Pump, Motor Ladder Truck (which must be secured soon) and the Chief's car on the level of Rosemary Street. The second floor could be arranged for the living quarters for the men. The basement with entrance from Highland Avenue could house the Motor and other equipment of the Highway, Moth, Fire Alarm and Police Departments. One of the permanent men should be a mechanic skilled in repairing motor apparatus. The land now used for fire stations could be sold for considerably more than cost of this lot.

The cost of maintenance of the Fire Department has increased from $4,400 in 1913 to $11,735 the amount recommended for 1920. The real estate valuation has increased over $2,000,000 during the same period.

Fire Alarm Department

Maintenance	$1,750
Whistle	3,000

The Fire Alarm System has been practically rebuilt during the past six years. At the annual Town Meeting, it was voted that a committee consisting of the Selectmen and Chief of the Fire Department be authorized to purchase a compressed air fire alarm signal at an expense not exceeding $3,000. The Committee made a very thorough investigation and visited several places having such apparatus and awarded the contract to the Gamewell Fire Alarm Telegraph Co., for $3,000 for a whistle of the LeBaron type.

Police Department, $5,825

The Board reappointed Norman MacKenzie Chief of the Police Department for his sixth term and his twenty-second as a member of the Department. Besides the Chief the Department consists of two permanent men who do night duty at each village and the special officers who are on duty Sundays, holidays and special occasions. The salaries of the men have been increased during the year, the Chief now receiving $35 per week and regular men $27 per week, the specials pro rata.

As a result of several thefts of bicycles the board offered a reward of $50 for information causing the arrest and conviction of persons stealing bicycles. Two arrests were made and the reward paid.

The Board recommends the appropriation of $6,400 for Police in 1920.

Insurance, $600

The schedule for insurance has been adopted by the town and provides for $306,000 on buildings and $70,000 on contents. The amount carried on buildings is as follows:

Description and Location	Amount Insured on Property Described Under Division 1
Town Hall	$48,000
Public Library	25,000
Engine House, Chestnut Street	2,600
Engine House, Highland Avenue	2,000
Engine House Stable, Highland Avenue	175
Pumping Station	11,000
Colburn Farm Buildings, Green Street	1,200

Description and Location	Amount Insured on Property Described Under Division 1
Colburn House, South Street	4,000
Highway Department Building, Howland Street	700
High School	30,000
Kimball School	18,000
Stephen Palmer School	35,000
Old Avery School	11,500
New Avery School	20,000
Eliot School, Central Avenue	10,000
Harris School, Great Plain Avenue	4,900
Dwight School, Central Avenue	5,600
Dwight School, Portable	1,200
Parker School, Charles River Street	3,600
Riverside School, Highland Street, Portable	1,200
Bath House on South Street	325
	$236,000

The insurance carried on some buildings is considerably below 80% of the present replacement value. A reappraisement will be made. The policies mature in very irregular amounts and will be renewed so that one-fifth of the premiums fall due each year.

The Board petitioned the New England Insurance Exchange for a new survey of our fire protection. The survey was made and Needham placed in Class B for ratings on dwelling houses on Aug. 8th, 1919. The first survey was made in March, 1913 on petition of the Finance Committee in their efforts to improve the fire fighting situation.

Board of Trade Signs

The Needham Business Association and Board of Trade presented the Town with the large signboards erected some years ago. The Board accepted same and have ordered them painted and lettered as soon as weather permits.

Town Hall, $2,650

The interior needs painting. The Board purchased a reading desk and chairs for the stage and have ordered new finish for the stage to be in keeping with the rest of the hall.

Transportation Committee $1,000

The Town voted to establish a Town Transportation Committee of five and appropriated one thousand dollars for use of same. The Moderator appointed the Board of Selectmen, William H. Carter and William P. Bailey. Mr. Carter was unable to serve. The committee organized with Mr. Hill, Chairman and Mr. Crawley, Secretary. A hearing before the Public Service Commission was secured with the officials of the Railroad present. A time table showing connections with trains at Newton Highlands during the day and evening, connection with the 11.20 P.M. train and the addition of an evening train via West Roxbury at 9.15 was presented by the committee as the minimum service Needham could grow and prosper under. The Commission agreed that the demands were not unreasonable and one member stated that the Railroad Company was clearly discriminating against Needham. The 12 o'clock noon train was started from Needham Station instead of from the yard, a train now waits for the 7.15 from Boston at Newton Highlands, Saturday evenings connection is made with the 8.50, 10.35 and 11.20 from Boston and two inbound trains, and at the time this goes to print we have definite promise that connection will be made with the 8.50 and 11.20 every week day night.

The Public Trustees of the Bay State System wrote the Selectmen as follows:

Oct. 7, 1919.

"The Trustees find that the Charles River-Needham line is steadily losing money.

"Further, the Roadway Dept. has asked for an appropriation of $10,000 for immediate repairs if the line is to be kept in operation this winter. Under these circumstances the Trustees cannot justify the expenditure. If the Town thinks the continued operation of the line is of sufficient importance to the Town to warrant its contributing the amount provided by Section 15 of the Bay State Act, we will consider continuing operation, otherwise we will be forced to discontinue on November 1st."

Oct. 15, 1919.

"Today I obtained another physical report on the Needham branch.

"I find that the track is laid with 70 lb. rail and was built in 1899. It has not been well maintained, in all 3,000 ties

having been put in during the last five years. The balance of the ties are in poor condition and Supt. of Roadway Walker estimates that 7,000 new ties will be required during 1919 and 1920. He estimates also that to put the track in condition for operation of one man cars it will be necessary to spend $25,000 during the next two years.

"This further confirms the facts I gave you yesterday, that although the line is operating at an actual loss of less than $1,000 the Trustees do not feel justified in spending the money to put in condition a line with such a doubtful future. If Needham will contribute one dollar per thousand assessed value, or about $10,000, we will immediately put the money into improvements on the track and agree to operate the line during the twelve months commencing November 1st. It would probably take a similar contribution for one more year to put the line in good enough condition to operate one man cars. We are of the opinion that after that it could be made self-supporting and could be continued in operation without further contributions.

"I will be glad to give you any further information you desire."

At a conference with the Trustees, no change from this proposition could be secured. A special Town Meeting was called to consider the matter.

Plans were immediately made to establish an Autobus Line between Needham and Charles River to be ready to start running the day the street cars were to be discontinued if the Town voted not to appropriate the sum demanded. The Town so voted. A contract was drawn up and entered into with Woodward Bros. The "Jitney" started on time Sunday morning November first.

The matter of fares on the Middlesex and Boston Street Railway has been discussed with the Public Service Commission and the officials of the railroad. Several efforts have been made to establish a zone system in Needham with a five cent fare between villages. All agree that the proposition is a fair one and good business, but no one has the authority to put same into operation. "Can't grant Needham special privileges."

The committee has been represented at all hearings where anything of interest to the Town has been under consideration.

Gypsy Moth Department, $3,855

The Board reappointed George Twigg, Superintendent of this Department. Property owners are requested to co-operate with the Superintendent that the suppression of the Moth Pest may be as effective as possible. The state law requires property owners to exterminate the moths on their estates.

Game Warden

The Board has recommended the Dept. of Conservation to appoint Charles G. Robinson Fish and Game Warden. The Town did not make any appropriation last year. The Board recommends the appropriation of $50 for the Warden.

Avery School Playground, $400

The Town for the past few years has appropriated this sum for the supervision of the Playground at the Avery School. The results have been of benefit to the community. A similar appropriation might well be considered for use at the Stephen Palmer School grounds.

The Board appointed Miss Helen Whitney and Paul Ryan supervisors of the playground. Mr. Ryan has also been on duty at the Bath House on the Town reservation on the river off South Street where several hundred children go swimming every year.

The playground was open mornings and afternoons for ten weeks. The average morning attendance was 55 and afternoon 63, the largest being 96.

The day's program was:

- 9–10 A.M. Free play.
- 10–11 A.M. Sewing.
- 11–12 M. Organized games.
- 2– 3 P.M. Sewing.
- 3– 4 P.M. Dancing.
- 4– 5 P.M. Story telling and free play for younger children.
- Organized games for older children

An interesting exhibition was held on the Cricket Field on Aug. 29th consisting of dances, games and ball game.

Soldiers' Welcome and Entertainment

The town appropriated $2,000 for this purpose. How best to welcome more than three hundred men and women who had been in the service was a problem. The men themselves wanted nothing but "eats, smokes and dances, no parades."

The Board tried to arrange transportation from Camp Devens for the men as they were discharged but with little success. On Memorial Day a more elaborate program than usual was carried out. A squad of service men took part in the parade to the Cemetery. A banquet was served in Association Hall at noon by the Women's Relief Corps.

On July 4th the official welcome and entertainment was carried out. During the morning nearly two hundred men and women who had been in the service of our country during the war met at the Town Hall, registered, received a medal from the Town and enjoyed a luncheon served on the lawn in front of the Hall in a large tent. The Women's Relief Corps provided the luncheon. Chairman Robert B. Hill of the Board presented the American Legion Post 14 with a silk American Flag in memory of the Needham men who gave their lives while serving their country during the World War. Commander J. Wells Farley of the Post accepted the flag on behalf of the Post. During the afternoon the program consisted of a ball game, races and a band concert on Greene's Field. A Military Ball in the evening to service men and their guests completed the day's festivities.

On Armistice Day the Legion carried out an interesting program suitably celebrating the first anniversary of the signing of the armistice. A parade of the men and women in uniform gave the townspeople their first chance to see what a splendid body of men Needham sent to war as they marched through our streets. The luncheon at noon, to which the Board and G. A. R. Veterans were invited, was a happy reunion and enjoyed by everyone fortunate enough to be present. The Women's Relief Relief Corps provided the "eats" to the entire satisfaction of all. The Military Ball in the evening was a pleasant closing feature of the day.

The Board, at the request of the National Headquarters of the American Legion, called a meeting of the service men for the purpose of completing the organization of the local

Post, the Charter for which was signed by those taking part in the Decoration Day parade. The first Commander was Maj. J. Wells Farley who fortunately for Needham was one of the original group responsible for organizing the American Legion. The present membership is 272.

The Legion has admitted the members of the G. A. R. to honorary membership. The Town appropriates annually $150 for rent of G. A. R. Headquarters. This sum should be increased to furnish ample room for the G. A. R. and Legion's meetings.

A meeting to which delegations from every organization in town were invited was called by the Selectmen early in the spring to consider a proper memorial for those who served in the World War. A committee appointed by the chairman has submitted a report.

Respectfully submitted,

ROBERT B. HILL,
SAMUEL H. WRAGG,
C. WALDO CRAWLEY,
Selectmen of Needham.

REPORT OF THE COMMITTEE APPOINTED TO CONSIDER A MEMORIAL TO THE MEN WHO SERVED IN THE WORLD WAR

The committee appointed by the representatives of town organizations, churches and citizens, who were called together by the Selectmen to consider the question of a suitable memorial for the men of the town of Needham who entered the United States and Allied Service in the World War submits the following report:

We have held several meetings in various parts of the town in order to get a full expression of opinion and have also held several conferences with a special committee appointed by the Needham Post No. 14 American Legion. After carefully considering all the suggestions offered we are of the opinion that the leading thought in the minds of our townspeople tends toward some form of park and recreation grounds.

The committee have been able to secure an option from Nellie A. Richwagen on a tract of land situated at the corner of Rosemary Street and the east side of Highland Avenue comprising about ten acres. This land can be secured for three and a half cents per foot or a total of about $15,000. We have also secured options on land for a "right of way" to said property from Kingsbury Street which will be necessary if the Richwagen land is acquired. The total cost for this "right of way" including building a street thereon will be about $2,500.

The committee have had detailed plans of this land prepared, made jointly by Mr. Frederick S. Kingsbury and Mr. Clifford N. Cann, Landscape Architects. These plans provide for all kinds of outdoor exercises for both children and adults beside furnishing a suitable site for a Memorial Building at the corner, which would be a fine setting with the other two public buildings at the opposite corners. The grounds can be developed as the needs of the town require and by planting trees and shrubs according to the plan would make a very attractive place for park and recreation purposes.

The location is about midway between the two largely populated parts of the town, is adjacent to the High School and Stephen Palmer School, together with the other sites for school buildings on "Greene's Field."

The committee are of the opinion that if the proposal is not taken up at this time, it will be impossible to again secure a tract of land so centrally and ideally situated. We therefore make the following recommendations:

(*First*) That the "Richwagen property" as shown on plan be purchased by the town as a "town memorial," to be known as Memorial Park.

(*Second*) That a strip of land forty feet wide be purchased for a "right of way" and a street built thereon between Kingsbury Street and the south side of the Richwagen property.

(*Third*) That the north-west corner of the Richwagen property be set apart as a site for a "Memorial Building" to be used by the men who gave their services in the World War and also for other public purposes, provided the land is purchased by the town.

The foregoing recommendations have the endorsement of the American Legion committee who strongly favor the proposition. It is anticipated that the funds necessary for the erection of the Memorial Building will be secured by the Legion, through public and private subscription, without any direct aid from the town.

If the plans are carried into effect the committee feels that the town will provide a suitable and lasting memorial, which would recognize those who gave their services and sacrificed so much, in order that Liberty might continue to prevail, not only through our own land but throughout the world.

Respectfully submitted,

Leonard Dawson, *Chairman*,
Mrs. William F. Casey,
Charles Kroll,
James M. McCracken,
Mrs. Benjamin W. Rideout,
David Simon,
Mrs. Charles D. Whitney, *Secretary, Committee.*

The representatives and citizens unanimously voted that the recommendations of the Committee be adopted.

The committee were authorized to confer with the Selectmen so that articles could be inserted in the town warrant for action at the annual March town meeting.

AGENT'S REPORT

To the Needham Board of Health, Needham, Mass.:

Gentlemen: — The following is my report as Agent and Milk Inspector for the Board during the year 1919.

I. Diseases Dangerous to Public Health

Considered from all angles the Town of Needham has enjoyed a remarkable freedom from contagious diseases. A total of 123 cases of diseases dangerous to public health were reported to the board. Table No. I shows the monthly distribution of the cases during the year 1919. In table No. II the number of cases for the past ten years is shown.

Diphtheria

A total of six cases were reported during the year. Of these six, one was a carrier whom the Agent discovered in a home from which a case of diphtheria was reported. Four of the six cases were sent to hospitals as the home conditions were such that complete isolation of the patient could not be satisfactorily made.

Scarlet Fever

Nine cases of scarlet fever came to the attention of the Board. By means of prompt quarantine the spread of the disease was checked to the place of its inception. During the latter half of the year scarlet fever has been rampant all through the state. In the month of December, during the week before Christmas, three cases were reported. All three showed upon investigation the following result: A visit to Boston to see Santa Claus; the handling of toys especially those which permit an exchange of saliva. It is a source of wonder to the writer that more cases do not occur from this source. Parents can do much by keeping their children away from such gatherings and by restraining them from handling articles which have come in contact with the mouths of others. Saliva and the hands are now regarded as the most frequent modes of infection.

Tuberculosis

The tuberculosis problem of Needham yearly becomes greater. The disease has a foothold and it is only by efficient work that it can be stamped out. State law would do much in aiding towns to combat this disease. As the law now stands it is impossible to force sufferers from this disease to undergo sanitarium treatment. To the mind of the writer no difference in power should exist between tuberculosis and other contagious diseases.

In the majority of cases the Agent finds the sufferers arrogant, and desirous of doing their own will, and not following the dictates of reason even though prompted by efforts to benefit the sufferer. Too many times have patients gone to sanitarium to remain for a period of ten to twelve days and then return home to become the foci of infection for others. State statute needs a change whereby these obstinate and willful carriers of disease can be forced to listen to reason. We do not tolerate the presence of sufferers from other contagious diseases and why should we stand for a tuberculous menace in the community? A total of ten new cases of all forms of tuberculosis were reported during the year 1919.

Influenza

Influenza cases to the number of sixty were reported during the year. Of this number fifty-six were from the epidemic of 1918. In the fall of this year four cases were reported to the Board.

Typhoid Fever

Two cases of typhoid, or rather one case of the disease and one carrier are recorded on the records of 1919. A case of typhoid was reported in one household and upon investigation the Agent discovered the presence of a maid who showed a typhoid fever history. Upon performing the necessary laboratory examinations the Agent isolated a culture of typhoid germs from this person. The carrier was sent to Boston for treatment. Had she not been discovered she undoubtedly would have been the source of infection for many others.

Complaints

The Board has received thirty-seven complaints during the year, all of which, were carefully investigated and acted

upon as the demands required. It is surprising how many complaints are unjustified, and seem to be nothing more or less than neighborhood quarrels. Pigs and garbage investigations make up a large number of complaints received.

In two instances it has been necessary to prosecute in court, persons who collected garbage without permits. It has been necessary in certain localities to prohibit the keeping of swine. At present there are two complaints upon which action is pending.

During the year the board has been forced to issue two legal orders to abate nuisances.

Laboratory Examinations

A total of one hundred and nine examinations were made in the Board of Health laboratory. The details of these examinations have been carefully covered in the Agent's monthly report to the board.

Diagnostic supplies, vaccine and diphtheria antitoxin are obtainable at Maloney & White's drug store. The writer desires to thank the owner for this privilege.

Milk

Milk supplied Needham from dealers who sell over twenty quarts daily is analyzed monthly, bacteriologically and chemically. The following tables give in a concise way the results of the twelve monthly analyses. The tables are worthy of study. The food value of milk is as a rule not appreciated and a glance at the tables reveals those dealers supplying milk

of good fat and total solid contents as well as a clean, fresh, product. The monthly reports have appeared in the "Chronicle" through the courtesy of its publishers.

Rules and Regulations

The Board of Health of Needham has in the process of printing a complete new set of rules and regulations. The former rules are more or less antiquated due to changes in the science of public health. The new set is modern and complete in its various details.

Public Health Education

It is the hope of the Agent that an educational campaign of this kind be attempted during the coming year. The more the sanitarian deals with his problems the more he realizes the value of Public Health Education. Health work done in an efficient way can do only a certain work. It may use its authority and its intelligence to decrease contagious disease and bring the death rate of the community to a low point, but the more he works, the problem invariably comes back to the individual. Personal hygiene is in reality the basis of community hygiene or as better known "Public Health." By having the individual well versed in the problems of personal hygiene the community reaps the benefit.

In closing, the writer wishes to thank the Board for its sympathetic and helpful attitude toward the work being done by the Agent.

Respectfully,

H. E. Berger, Jr.,

Agent.

REPORT OF SUPERINTENDENT OF STREETS

To the Honorable Board of Selectmen:

Gentlemen: — I herewith submit my seventh annual report, for the year ending December 31, 1919.

As conditions were favorable to making early repairs on gravel roads we started in the first week in March. This work continued into April, then all streets received a thorough cleaning.

Fencing

Five hundred feet of fence was built; about twice as much will be necessary the coming year. On Central Avenue and Fisher Street the fence is in bad condition.

Drainage

A part of the drain on Chestnut Street from Oak Street south, four hundred feet was taken up, cleaned and relaid at a cost of $134.

The necessary cleaning was done to catch basins and other drainage.

Bridges

The plank walk on the Upper Falls bridge was rebuilt. Other bridges are in good condition.

Road Preservatives

Forty thousand two hundred and eighteen gallons of tarvia B was used at a cost of 8 cents per gallon at factory in Everett, or 4 cents less than last year, the freight rates increased from $\frac{1}{2}$ cent to 1 cent per gallon.

Street Repairs

On account of the weather conditions, the surface of many streets required considerable repairs. Two thousand

gallons of tarvia K.P. and about 100 tons of pea stone were used in this work.

The following streets received necessary repairs:—

Broad Meadow Road, 800 feet	$359 75
Green Street, 750 feet, including laying 108 feet 8-inch pipe	429 12
Greendale Avenue, continuation of last year, 600 feet	350 00
Central Avenue near Marsilli's, stone base 500 feet	604 50
Central Avenue near E. Wright's, 650 feet	346 75
Hillside Avenue near Rosemary Street	185 62
West Street hill	108 50
Alfreton Road	93 50
Repairing with tarvia and stone	1,125 50

Street Construction

Great Plain Avenue from Marshall Street to Marked Tree Road was resurfaced with four inches of crushed stone and treated with tarvia X, using 2,100 gallons. Cost $595.21, 1,150 square yards at $51\frac{1}{2}$ cents a square yard.

Webster Street, beginning at Hillside Avenue and extending toward Central Avenue, 1,450 feet. This street has been very rough for travel for some time. The Street Railway Co., co-operated with the Town and removed the tracks at the turn-out, this gave us room for 18 feet of crushed stone and 3 feet gravel shoulders on each side. Six thousand four hundred gallons of tarvia X. &. A were used. Cost $2,296.63. The crushed stone will average 6 inches thick and was crushed from the stone at the Town pit at Hurd's corner. There are 3,300 square yards costing $69\frac{8}{10}$ cents a square yard.

A part of Warren Street between Great Plain Avenue and Dedham Avenue was very soft in the early spring. This was dug out to a depth of a foot filled with gravel bank stone and surfaced with gravel. Part of this street was rebuilt in 1916. There are 1,100 square yards costing $32\frac{2}{10}$ cents. Total cost $354.76.

Great Plain Avenue 450 feet east of Manning Street to Webster Street, 1,100 feet in length and 25 feet wide, the State and County each paying one-third of the cost.

Crushed stone to an average depth of six inches after rolling was penetrated with tarvia X, using 8,700 gallons, with a seal coat of tarvia A, using 2,100 gallons, and covering with pea stone. Total cost $4,451.47, 3,000 square yards at a cost of $1.48 a square yard.

Sidewalk Granolithic

Rosemary Street from Hillside Avenue past the factory, $282\frac{2}{3}$ square yards and 36 feet curb.

Highland Avenue corner Rosemary Street $84\frac{4}{9}$ square yards.

Pickering Street corner May Street $154\frac{1}{3}$ square yards.

May Street corner Webster Street $197\frac{5}{9}$ square yards.

Webster Street corner Otis Street $67\frac{2}{9}$ square yards.

Bradford Street, Great Plain to Harris Avenue $435\frac{7}{9}$ square yards.

Cost of curb 70 cents per foot. Cost of granolithic $2.30 per square yard. Total cost $2,904.04. Amount due from betterments $1,186.37. Receipts $396.20

Sidewalk Repairs

The wooden walk on Webster Street between Norfolk and South Streets was taken up and replaced with a gravel walk, and treated with tarvia B. Total cost $311.25. Length 1,200 feet. Received for old lumber $20.

Kimball Street, Warren to Pleasant Street	$135 30
School Street, Grant Street toward Warren	133 40
Webster Street, near Kingsbury Street	63 00
Tarvia B for sidewalks	211 90
Other repairs	812 93

The walks on west side of Hillside Avenue from West Street to Rosemary Street and on Rosemary Street from Hillside Avenue to the R. R. crossing were put in good condition and treated with tarvia B. With another treatment next year this should give good satisfaction.

Snow

Only a small amount of work was necessary and mostly for sanding sidewalks.

Four all steel plows were purchased from the W. M. Toy Co., Sidney, O.

Cost	$150 00	Appropriation	$1,500 00

High Rock Street

As soon as the contractor had completed the subgrade as per contract the Highway department began building the foundation for the street and surfacing with gravel.

A stone base was laid, varying from 6 inches to 1 foot and rolled.

Beginning at Central Avenue 3,400 feet was built, costing $2,547.65 or 74 cents per foot. Two thousand six hundred feet has been surfaced with gravel costing $2,103.50 or 77 cents per foot.

Cutting down the grade on Marked Tree Road at High Rock Street made it necessary to relay the water pipes; 500

feet were relayed, about 200 feet were through ledge. Cost $762.79.

Recommendation for 1920

General Appropriation	$27,000 00	as follows
Cleaning	4,000 00	
Drainage	500 00	
Fencing	350 00	
General	4,000 00

Street Construction	5,600 00	
		$27,000 00
Snow		3,000 00

Out of repairs I would recommend that $500 be spent on Greendale Avenue, a continuation of last year's work, near Mrs. Kingsbury's; that $2,500 be spent on South Street between the Livingstone residence and Webster Street.

I would recommend that a special appropriation of $2,500 be made for Webster Street, connecting Highland Avenue with the work done last year on Webster Street.

In closing I wish to thank your Honorable Board and those connected with the department for their co-operation the past year.

Respectfully submitted,

H. D. Blackman,

Superintendent.

REPORT OF POLICE DEPARTMENT

December 31, 1919.

To the Honorable Board of Selectmen, Town of Needham:

Gentlemen: — I hereby submit the annual report of the doings of the Police Department, for the year ending December 31, 1919.

Number of arrests	41
Number of cases	44
Number of males	38
Number of females	3
Number of residents	21
Number of non-residents	20
Number of juveniles	1

Causes of Arrests

Assault and battery	6
Breaking and entering	1
Cruelty to animals	2
Drunk	6
Disturbing the peace	4
Fugitive from justice	3
Insane	2
Keeping unlicensed dog	1
Larceny	2
Neglect of wife	1
Violation of Town By-Laws	5
Violation of automobile laws	6
Vagrancy	3
Working on Lord's day	2

Disposition of Cases

Filed	3
Fined	25
Discharged	4

Probation	3
Sent to jail	3
Settled out of court	1
Committed to Insane Hospital	2
Turned over to other Police Departments	3
Amount of stolen property recovered	$11,000
Amount of fines	

The war-time prohibition proclaimed on July 1st, has resulted in over 50% reduction in the number of arrests for drunkeness over the previous year, and over 75% for the year 1917. I think the decrease in the number of all other cases can be said to be due indirectly to this act.

The automobile traffic has been exceptionally heavy during the year, but very few accidents have occurred. With the exception of the unfortunate accident at Foley's Crossing on January 10th, there have been no serious cases.

As in previous years, the number of cases of malicious mischief and vandalism, by young boys, have been very numerous, but all of them have been settled out of court, satisfactorily to the parties directly concerned.

A surprisingly large number of animals, such as sheep and hogs, were either maimed or killed outright by dogs. These dogs were presumably wild, running at large through the woods, and causing havoc to the cattle raisers in several sections of the Town. Most of the dogs were killed and the farmers reimbursed by the County for their losses.

The purchase of an automobile for the department has greatly assisted in the work, and has proven its worth and necessity in many instances.

I wish to extend to your Honorable Board, the thanks of all the men in the department, for the increases granted and your willingness to co-operate at all times.

Respectfully submitted,

NORMAN MACKENZIE,
Chief of Police.

REPORT OF FIRE DEPARTMENT

December 31, 1919

To the Honorable Board of Selectmen:

Gentlemen: — I herewith submit the thirty-fourth annual report of the Needham Fire Department.

The Department has responded to 87 calls including one second alarm, five still, one out of town call to Dover, and one emergency police call.

The cause of fires so far as known are as follows:

Sparks, locomotive	27
Chimney	8
Incendiary (grass and woods)	6
Burning grass and rubbish	11
Smoking	3
Automobile collision	1
Hot ashes	1
False	4
Amount of hose used for fire service	8,550 ft.
Amount of chemical used	519 gals.
Number of feet of ladders used	403 ft.

The amount of values, insurance and loss by fire is as follows:

Value of building at risk	$229 00
Insurance on same	197 50
Loss on building	34 40
Insurance paid on building	23 55
Value of contents at risk	88 00
Insurance on same	63 00
Loss on contents	25 50
Insurance paid on contents	25 50
Total value of property at risk	317 00
Total amount of insurance	260 00
Total loss	59 00
Total insurance paid	49 05

The successful operation of the Motor Combination has proven beyond a possible doubt the wisdom of the purchase of this machine. Without this equipment the fire loss in the past year would have been many times that shown in the preceding figures of this report.

Because of the great advance in building costs, the extinguishing of a fire in its incipiency is more essential than ever before and the quick arrival of the apparatus to the scene of the fire is the prime factor.

By the same reasoning the matter of the purchase of a second motor piece in the form of a motor combination pump to be quartered at Needham Heights is of great importance, and it is to be hoped that the voters of the town will authorize such a purchase at an early date. With the growth of the town, the work of the Fire Department increases, and the organization and requirements advance accordingly.

This particularly applies to the increase in the number of permanent men in the Department. This leads to the consideration of quarters for the men as well as suitable housing for the apparatus. In the near future the construction of a new fire station must be given due consideration.

During the past year a compressed air whistle has been installed in the fire alarm system and is giving general satisfaction.

I would recommend the installation of a new fire alarm box at the corner of Linden and Walnut Streets.

Respectfully submitted,

H. Howard Upham,

Chief of the Fire Department.

REPORT OF FOREST WARDEN

December 31, 1919.

To the Honorable Board of Selectmen:

Gentlemen: — I herewith submit my eleventh annual report as Forest Warden.

In the month of February notices calling attention to the fire laws were published in the Needham *Chronicle*, and the notices issued by the State Forester were posted in accordance with the statutes. The number of permits issued from this office during the past year was 1,003, a decrease of five from last year. On the issue of a permit, the holder of the same should read it carefully and be sure he has sufficient help present to control the fire. He should not leave the fire until it is entirely extinguished. Do not use permits unless weather conditions are favorable. The permit must be shown to anyone who may request it. The following are extracts from the Massachusetts Forest Laws:

Setting Fire to Growing Wood or Timber of Another

Punishable by a fine of not more than $100.00 or by imprisonment for not more than six months. R. L. 208, Sect. 7.

Letting Fire Escape

Negligently allowing fire to escape from your own land to adjoining land. Punishable by a fine of not more than $250.00, also liable for damages. R. L. 208, Sects. 8 and 9.

Forest Wardens Not Liable to Arrest for Trespass

Wardens, Deputies and Assistants, not liable for trespass while acting in the reasonable performance of their duties. Acts 1907, 475, Sec. 6.

Permit to Light Fire in the Open

In any city, or towns so voting, a permit from the Forest Warden must be obtained to start a fire between March 1 and December 1. The only exception being — that debris

from fields, garden or orchards, or leaves and brush from yards may be burned on ploughed fields by the owners thereof, their agent or lessees, but in every case such fire shall be at least two hundred feet distant from any forest or sprout lands and at least fifty feet distant from any building, and provided further, that persons above eighteen years of age may maintain a fire for a reasonable purpose upon sandy or barren land, if the fire is enclosed within rocks, metal or other non-inflammable material, but in every case such fire shall be properly attended until extinguished. Violation of this provision — punishable by a fine of not more than $100 or imprisonment for not more than one month or by both such fine and imprisonment. Acts 1908, 209, Sec. 4, as amended by Chapter 244, Acts 1911.

Arrest Without Warrant

The Forest Warden or any of his deputies may arrest any persons setting or maintaining a fire in violation of the provisions of this Act. Acts 1908, 209, Sect. 4, as amended by Chapter 244, Acts 1911.

Penalty for Refusing Aid

Any person between the ages of 18 and 50 years who refuses, without good cause, to assist the Forest Warden or his Deputies in the fighting of forest fires is liable to a fine of not less than $5 or more than $100. R. L. 32, Sect. 21; 1907, 475, Sect. 3.

Disturbing Notices

Whoever wilfully tears down or destroys any notice posted under the provisions of this Act shall be punished by a fine of $10. Acts 1907, 475, Sect. 7.

Laws Relating to Brush or Slash

The law relating to disposal of slash or brush following wood or lumber operations is as follows:

1914, 101, Sect. 1. Every owner, tenant or occupant of land, and every owner of stumpage, who cuts or permits the cutting of wood or timber on woodland owned or occupied by him or on which he has acquired stumpage by purchase or otherwise, and which borders upon the woodland of an-

other or upon a highway or railroad location, shall clear the land of slash and brushwood then and there resulting from such cutting for such distance, not exceeding forty feet, from the woodland of such other person, highway or railroad location as the local forest warden shall determine, and within such time and in such manner as he shall determine.

1914, 101, Sect. 2. Any person who cuts or causes to be cut trees or brushes or undergrowth within the limits of any highway or public road shall dispose of the slash and brushwood then and there resulting from such cutting within such time and in such manner as the forest warden of the city or town wherein such cutting is done shall determine.

1914, 101, Sect. 3. Whoever neglects to comply with the directions of the forest warden with regard to the disposal of slash and brush, as provided in sections one and two of this act may be punished by a fine of not less than five dollars nor more than fifty dollars.

1914, 101, Sect. 4. This act shall take effect on the first day of January in the year nineteen hundred and fifteen.

Respectfully submitted,

H. Howard Upham,
Forest Warden.

REPORT OF SUPERINTENDENT OF FIRE ALARM

January 1, 1920.

Board of Selectmen:

Gentlemen: — I beg leave to submit the annual report of the Superintendent of Fire Alarm.

A new service has been installed on the charging board necessitated by its renewal. This work in the battery room was necessary for the proper safe-guarding of the system.

A LeBarron compressed air whistle has been installed on the Town Hall, with its accompanying apparatus in the battery room. The official test showed the capacity to exceed greatly the sixty-five blows guaranteed. The whistle itself proved not entirely satisfactory as to carrying power, and Mr. LeBarron showed the greatest interest in tracing the trouble to its source. He at once offered to substitute another whistle, which should be the same as those cast before the war. Mr. LeBarron's attitude is greatly appreciated, and I take this opportunity of making public acknowledgment of his fairness.

A new box has been installed at the corner of Rosemary street and Hillside avenue, the old box remodelled and installed at the corner of Bradford street and Harris avenue. The bell striker in the Congregational Church has been removed; also one in the Methodist Church which has not been in use for the past twenty years.

There is about one-half mile of wire on hand, which amount should be held in reserve for cases of breakage by storm and accident. Therefore for the completion of the reconstruction of lines as laid out and approved two years ago, two miles of wire should be purchased.

I would recommend the installation of a clock for automatically striking the test blows on the system. At present these blows are struck by hand with a key in the station, — more or less irregularly. Consequently a false blow may be

mistaken for a test, and the fact that the system is out of order be unknown.

I would further recommend the installation of two new boxes; one replacing Box 82 at Charles River, which will have to be thoroughly overhauled if continued in the system; the other at the corner of Linden and Walnut Streets.

Respectfully submitted,

HERBERT T. SLANEY,

Superintendent of Fire Alarm.

REPORT OF INSPECTOR OF WIRES

The Department devoted to the inspection of wires has been more active during 1919 than during 1918. One hundred and seventy-eight permits were issued during the year, forty-four for public buildings and factories and the balance for dwellings and other small private buildings.

The removal of government restrictions on the use of electrical material in dwellings has led to many old houses being wired in spite of the greatly advanced cost of both material and labor, while so far as known no new dwellings built during the year are left unwired.

Needham poultry keepers are more and more using electric lighting in their poultry houses. It should be borne in mind that the chaff and dust always present in such places make a particularly dangerous combination with any sort of exposed electric fittings and such work should be undertaken only by an experienced man.

The local employees of the Edison Company, particularly Messrs. Kent and Taber, have assisted the inspector in many ways and their help is much appreciated. Labor difficulties have prevented some services being connected as promptly as is customary but this will be obviated by plans to be carried out in the near future.

Respectfully submitted,

C. D. Walker,

Inspector of Wires.

REPORT OF SUPERINTENDENT OF MOTH WORK

To the Honorable Board of Selectmen:

Gentlemen: — I herewith submit a report of the Gypsy Moth Department for the year ending December 31, 1919.

Survey by a State Forestry Official in the summer of 1919 reveals an ascendency in the Gypsies. This year the wilt disease failed to make its usual attack. Parasites appeared in much smaller numbers.

Normally the Gypsy Moths should have been wasting away this year because they have been weakened by the recent spread of the wilt disease, but something happened last year to turn the scale in favor of the Gypsy. In the spring there were six weeks of dry weather, starting with a few days of high temperature, which was ideal for the life and development of the larvae, but was not the kind that generates wilt disease. It is problematical what the conditions will be in the coming year under these circumstances.

The Calosoma Beetle, an imported parasite, which has been our greatest aid in the control of the Gypsy Moth in the past, was seen in very small numbers. Whether the severe winter of two years ago had any effect upon them is uncertain.

The Browntail Moth has practically disappeared in Needham.

An early spraying was made for the Oak Leaf Roller, in localities where they had done much damage the previous two seasons, and was entirely successful.

The usual amount of creosoting was done on street trees and those on private estates. Burlapping has been discontinued on recommendation of the State Forester, as the results obtained did not warrant the expense incurred.

In spraying for the Gypsy Moth and other insects, this department used seven tons of arsenate of lead this season. The foliage on our street trees was retained all summer, and

the spraying done on private estates was very satisfactory. The trees in our neighboring towns of Dedham, Westwood and Dover bordering on Needham, were completely defoliated. Thousands of moths from these infested places were blown into our town where they deposited their eggs.

Birds Hill and High Rock woods were badly infested with colonies which also spread to other parts of the town.

The inaccessibility of these woodlands make it impracticable to spray them. The present appropriation and equipment is inadequate to attempt the undertaking.

The co-operation of private property owners in the past year has been gratifying, and is greatly appreciated by this department.

It will be absolutely necessary this year to purchase 800 feet of new hose. There has been none purchased for some years, and a large part of our hose is worthless.

Sufficient equipment and labor, together with favorable weather conditions during the spraying season, will have much to do with the results obtained.

Respectfully sumbitted,

George Twigg,

Local Moth Superintendent.

REPORT OF TREE WARDEN

Considerable trimming and brush cutting has been done this year, especially on dangerous curves, making it safer for travel, also aiding in the suppression of pests. The ever increasing height of the loads carried by trucks over our main throughfares, to which there should be a limit, is causing much injury to street trees, bruising and breaking branches which will necessitate much higher trimming, consequently spoiling the symmetry of the trees.

A number of trees have been removed in various parts of the town which have died through injury and accident, scale and diseases on maple and ash, and continued defoliation on elms by the elm leaf beetle. Grading for sidewalks, together with the use of tar and cement for street and sidewalk construction has been another factor in these losses. Some of the trees have been replaced and others have been planted in places where they were most needed. It is planned to set out a still larger number in the spring.

In many places our ash and maple trees are badly infested with scale. These will be treated before spring with a dormant spray of Soluble or Miscible Oil, and later the maples will be sprayed for the blight and fungus diseases with Bordeau Mixture and lead. This treatment is necessary owing to the condition of these trees, and will prove beneficial.

It does not seem to be generally understood that to mutilate, cut down, trim or remove trees, or cut limbs for any reason without permission of the Tree Warden is violating the Massachusetts Shade Tree Laws, and is punishable by fine. Section 5 of the Massachusetts Tree Laws, that: "Tree Wardens and their deputies, and no other person may, without a hearing, trim, cut down or remove trees." Section 6 states, that: "Whoever violates any of the provisions of the preceding section of this act shall forfeit not more than $500 to the use of town or city."

The advance in wages and cost of material makes it necessary to ask for an increase in the appropriation in order to carry out the work planned for this department.

George Twigg,
Tree Warden.

REPORT OF SEALER OF WEIGHTS AND MEASURES

December 30, 1919.

To the Honorable Board of Selectmen:

I hereby submit the report of the Sealer of Weights and Measures Department.

Owing to the correct condition of the scales, gasoline pumps and other paraphernalia of the various places of business, the work of this Department has been greatly helped. The duties are many and exacting though, somewhat interesting, and only by experience can the best results be obtained.

The working outfit is fairly good and complete. Eighty-two inspections have been made and receipts are $60.21.

Respectfully submitted,

William H. Stanton,
Sealer of Weights and Measures.

REPORT OF THE BUILDING INSPECTOR

To the Honorable Board of Selectmen:

Gentlemen:— I herewith submit the seventh annual report of the Department of Inspection of Building and Plumbing.

The number of permits issued from this office for the erection of new buildings, alterations and additions is one hundred and seventy-five, and sixty-one for plumbing. The number of permits issued from this office the past year is more than twice that issued the previous year and a gain of more than three times in the value of real estate. All work has been carefully inspected and approved.

The estimated cost of construction as per monthly issue of permits is shown by the following:

	Permits	Value
January	2	$425
February	7	5,825
March	15	12,595
April	20	41,421
May	16	117,300
June	8	2,150
July	25	31,550
August	15	41,870
September	18	40,440
October	23	16,650
November	18	39,900
December	8	34,750
Total	175	$384,876

Respectfully submitted,

H. Howard Upham,

Inspector of Buildings and Plumbing.

REPORT OF PARK COMMISSIONERS

To the Citizens of Needham:

The Park Commissioners were unable to do any extra work in 1918 and 1919 as they were only allowed a somewhat reduced appropriation on account of the war time conditions.

During the Spring of 1920 some two or three trees should be set out on the Needham Heights Common, to take the place of trees that have died, and several dangerous corners should have a readjustment of shrubbery.

The Parks in various parts of the town have been cared for as usual.

The bathhouse on South Street was in charge of Mr. Paul Ryan who has proven himself to be a very efficient life guard in 1919 as well as 1918. The bathhouse was open every afternoon except Sundays. Monday, Wednesday and Friday were devoted to the boys. Tuesday, Thursday and Saturday to the girls. The average attendance from June 30 to August 30 was (40). The highest average was the last week in August when it was (66).

PRESTON MITCHELL,
FREDERICK S. KINGSBURY,
I. TUCKER BURR, JR.,
Park Commissioners.

REPORT OF OVERSEERS OF POOR

January 1, 1920

To the Citizens of Needham:

The Board of Overseers of the Poor hereby submit their annual report for the year ending December, 1919.

It will be seen by a study of the statistics that of the $11,000 appropriation only $10,305.25 has been spent. This is due to the general prosperity.

The Board feels that it is necessary to ask for $11,000 again for the ensuing year.

Should no new contingency arise the expenditures will be practically the same as for 1919 on account of the high cost of living. We would call your attention to the number of families receiving Mothers' Aid and the amount of money expended thereon. These families should, according to law, receive aid adequate to supplement that of the lost wage earner, so the children may receive all the benefits that by right belong to them.

We are still reaping the benefits of the thoughtfulness of the late Hon. William Carter, through the wood which was placed at the Board's disposal two years ago, when a certain percentage of all wood cut was to be given to the town for its needy.

This item has saved the town several hundred dollars.

Early in the year 1919 Miss Esther C. Johnson, then our librarian, resigned to accept the position of librarian in Wellesley, and on April 18, she left the service of the Town of Needham, having been in its employ since August, 1912. After careful investigations and considering various candidates the trustees engaged as librarian Miss Grace W. Thompson of Dover, Massachusetts, who began her work in Needham on June 1st. Miss Thompson is a graduate of the Needham High School, of the College of Liberal Arts of Boston University, and of Simmons College. For two years and a half she was an assistant in the Public Library of Brooklyn, N. Y., and later engaged in research work in the Widener Library of Harvard University. At the time she accepted the position of librarian in Needham she was a cataloguer in the library of Radcliffe College. Thus far she has given entire satisfaction to the trustees, and they believe to the community also.

During the year a considerable sum was received by the library from the Greenwood Fund, being income therefrom. It is the intention of the trustees to place a suitable book-plate in each book purchased with the income of this fund, beginning with 1918. A bookplate will also be prepared for books bought with the income of the Martha Ann Barr Fund. This fund, amounting to five hundred ($500) dollars, has been received by the town from the executor of the will of Benjamin L. Barr, formerly of Needham, and well remembered by some of its inhabitants. Mr. Barr gave this money as a permanent fund in memory of his wife, the income to be used for the library.

In 1919 the trustees have purchased a large number of books, and have incidentally strengthened the reference department and added to the books especially used by pupils in our schools. The usefulness of the deposit station in the Harris schoolhouse has been increased, and further development is expected. Miss Mary E. Glancy has for years given much time to the work of establishing an efficient library service in the schoolhouse where she teaches, and is entitled to the appreciation of the public for what she has done.

Not only has the equipment of the library been greatly improved in 1919, but the draperies, curtains and cushion covers, which were badly faded and had ceased to be a credit to our handsome library building, are being replaced with new ones believed to be more durable. This renewal of the upholstery cost considerable money, as did the improvement of the library grounds by the planting of small evergreens and shrubs, but the trustees feel that both of these expenditures were fully justified. These improvements were made possible by the income of the Greenwood Fund, a portion of which income was thus spent, and the rest of it used for the purchase of books. It is the desire of the trustees to make the library the most attractive public building in the town.

Last spring Mrs. Alice Mayo Hicks, the last of the original trustees of the Needham Free Public Library, declined re-election. She was a most genial associate and had given the town efficient service for many years. Her colleagues feel that the disappearance from their board of the last of the original trustees should not occur without mention in the town report.

For several months a bronze bust of Mr. William Carter, to whom the town is largely indebted for its beautiful library, was displayed in a conspicuous place in the building.

The trustees expect that 1920 will see a still further increase in the remarkable circulation of books, which in 1919 was forty-six thousand two hundred and sixty-nine. It is a few thousand volumes in frequent use that make ninety per cent of this large distribution of books.

Respectfully submitted for the Trustees,

GEORGE K. CLARKE,
Chairman.

REPORT OF THE WATER COMMISSIONERS

To the Inhabitants of the Town of Needham, Massachusetts:

The Water Commissioners herewith submit their thirtieth annual report for the year ending December 31, 1919.

At the annual town-meeting in March, Mr. Henry Thomas was elected Water Commissioner for two years to fill the vacancy caused by the resignation of Mr. Walter K. Queen.

Mr. Charles W. Jones was elected for the three-year term.

The board organized by electing Mr. Philip A. Rand, chairman; Charles W. Jones, secretary; and appointing George A. Adams, clerk.

Extensions

A six-inch main has been laid in Charles River Street, from Grove Street, west, to a point opposite the residence of Mr. Theodore L. Shaw, and a six-inch fire service laid for the protection of Mr. Shaw's residence.

The extension in the street was laid under a ten year guarantee, and the total cost of the fire service was borne by Mr. Shaw.

A six-inch fire service has been laid from Hillside Avenue, to the William Carter Co.'s Mill No. 5 the total cost being borne by the William Carter Co.

In consequence of the building of High Rock Street, where it crosses Marked Tree Road, it was necessary to lower the water main a distance about five hundred feet on the two streets also lower three house services. The trenching and ledge work was done by the Highway Department, and the pipe work by this department, the cost of the same was charged to the High Rock Street appropriation.

There are several streets in town where short extensions of the main could be made and do away with the existing dead ends and greatly improve the service, viz.: Mellen Street through to Webster; Rosemary Street through to Highland Avenue; May Street through to Highland Avenue; Howland

Street through to Webster; Kingsbury Street through to Webster; these extensions should be made when the labor and iron market get anywhere near normal conditions, and as there is a movement on foot to relocate and rebuild Central Avenue it would be advisable to lay a main from the Marsilli cottage to the residence of George M. Chamberlain, thus connecting two dead ends and giving a second main to supply the south part of the town where the largest water takers are located, at present the whole supply being through South Street.

Hydrants

During the months of November and December all of the hydrants were inspected, tested and repaired where found necessary and each one left in first class working order, and a map of the town has been prepared, showing the location of the hydrants and gates together with the size of pipes in each street.

Standpipes

The old standpipe has been scraped, wire brushed and painted one coat of red lead and two coats of gray, the department furnished the paint, and the labor was done by contract after selective bidding by the local painters, Mr. William Hamson being the lowest bidder for the labor on both standpipes, but owing to the weather conditions during the fall the painting of the new standpipe has been postponed until warm weather.

Pumping Station

The pumping station, stock buildings, well houses and bridges have been thoroughly repaired and a new window put in the brick wall of the fire room opposite boiler No. 1 and all of the woodwork of the buildings painted two coats.

The painting was done by contract, Mr. H. N. Keith being the lowest bidder.

Bonds

Bonds to the amount of ten thousand dollars have matured and been paid during the year.

TOWN OF NEEDHAM

REPORT

OF THE

FINANCE COMMITTEE

TO THE TOWN

AT THE

ANNUAL MEETING, MARCH 17, 1919

ELECTION MARCH 10
BUSINESS MEETING MARCH 17, AT 7 O'CLOCK

BROOKLINE
THE RIVERDALE PRESS: HARVARD SQUARE
1919

REPORT OF FINANCE COMMITTEE

The Finance Committee submits this report to the citizens of Needham with their recommendations after conference with the various departments and individuals interested in the articles in the warrant.

If these recommendations are followed, the increase over last year's appropriations will be $25,372.

ARTICLE 5

The Finance Committee recommends the following appropriations:

Selectmen's Department. $750. [Salaries $450, expenses $200, clerk $100.]

Accounting. $1,000. [Salary $900, expenses $100.] The Committee recommends that the Water Department pay Town Accountant $250 out of the revenue of their department for keeping the department's books and reimburse him for last year's work.

Treasurer. $925. [Salary $500, clerk $100, bond $125, expenses $200.]

Tax Collector. $1,100. [Salary, expenses, and bond.]

Assessors. $2,300. [Salaries $1,800, expenses $500.] The Legislature has passed a law increasing pay of assessors from $2.50 to $3.50 per day. The Assessors ask for an increase of $450 in salaries, but the Finance Committee does not recommend same.

Finance Committee. $150. [Printing and distribution of report.]

Town Clerk. $575. [Salary $250, fees $125, expenses $200.] The increase of $75 is for new books, cases, etc.

Election. $550. [Salaries of registrars $160, election officers $150, expenses $60, printing $180.] The unusual expenses in this department were due to the Constitutional Amendments.

Care of Town Hall. $2,000. [Janitor and help $865, fuel $575, supplies $130, repairs, etc., $300, water $130.]

Police. $5,000. [Increase of $250 due to raise in salaries.]

Fire Department Maintenance. $6,654. [An increase of $544.] The chief to receive an increase of $80, making total salary $1,400, of which this department pays $900, the balance coming from salary as Forest Warden, Fire Department engineer, and Building Inspector; $300 is added for the second permanent man on account of wire inspection being done by a man outside the Fire Department; this permanent man is to be paid $1,200, $700 of which comes as salary of Fire Alarm superintendent. The salaries of the captain and crew of motor apparatus are recommended

to be increased $15 each. The total recommendation is made up as follows: chief $900, permanent man $500, captain motor apparatus $135, seven members crew $125 each or $875, captains company No. 2 and hook and ladder $93.50 each or $187, fourteen members of these companies $82.50 each or $1,155, captains outlying districts $27.50 each or $55, eight men at $26.40 each or $211.20, paid service $225, horse hire $500, new hose $500, supplies, etc., $200, rents, stewards, coal, lights, water $200, repairs $400, gas, etc., for motor truck $250.]

Fire Alarm. $1,750. [Cross arms and expense erecting four miles wire bought last year $550, contingencies and supplies $300, new box $150, salary superintendent $700, repairs and installation of sixth circuit on switchboard $500.] The committee especially recommends that the $50 be spent on switchboard. It was recommended that $985 be expended for a new slate switchboard and certain refitting in connection with same. The Finance Committee, after consultation with experts and reading reports of the N. E. Insurance Exchange, do not consider a new board necessary, and do not recommend same.

The appropriations for Tree Warden, moths, Forest Warden, hydrants, snow removal, vocational schools, unclassified, insurance, removal of garbage, street lighting, Memorial Day, rent of G. A. R. headquarters, are the same as last year, or practically so, and require no special comment.

Board of Health. $1,000. [Salary agent $650, contagious cases and incidentals $350.]

Inspection. $1,100. [Inspectors of cattle, wires, plumbing $450, Building Inspector $300, Sealer of Weights and Measures $150, incidentals $200.]

Highways. $21,000 and receipts from individuals. [An increase of $4,000 over 1918. General expenses $3,000, preservatives $7,000, repairs $5,000, cleaning $2,750, fences $200, drainage $300, construction $2,750.] The price of tarvia alone has increased from 5 cents to 15 cents per gallon. The committee also recommends the appropriation of $1,500. to continue the work on Great Plain Avenue, provided the state and county contribute $1,500 each toward cost of same, together with $3,000 credit, as provided for in Section 4, Chapter 719 of Acts of 1913.

Sidewalks. $3,000. [An increase of $2,000 to allow for the construction of that amount of new work under the betterment act.]

Poor. $11,000. [An increase of $5,250 over last year's appropriation. This recommendation does not call for the usual provision that reimbursements as received shall be added to the appropriation but will go directly to the treasury. The Overseers were obliged to contract bills considerably in excess of last year's appropriation.

The increases in State aid and soldiers' relief are the result of present conditions.

Schools. $65,651 and receipts and interest from Dwight School fund. An increase of $5,481.

		Cost, 1918	Estimated cost, 1919
Salaries: teachers, supervisors, janitors, attendance officer		$41,856 16	$48,811 00

The School and Finance Committees met and went over the budget in detail and agreed that the above recommendations are necessary for the proper maintenance of schools for the year 1919. The State Inspector has ordered repairs and alterations that must be done amounting to $1,500. The saving on fuel is due to the School Committee's purchase of coal late in the fall and having a large stock on hand. The increase in transportation is due to the schools being closed last fall and the increase in carfares and barge hire. The $500 for water is in accordance with the town's vote last year.

School Physicians. $750. [The increase of $450 is due to the inability of the School Committee to secure doctors to serve for $150 each and compares favorably with other towns.]

Parks. $600. [A decrease of $100. The cost of maintaining the department in 1918 was $571.37.]

Public Library. $4,000 and an amount equal to receipts from dog taxes, fines, and accrued income from the Greenwood fund. [An increase of $650 due to increase in salaries of janitor and assistant librarians, repairs and equipment, and smaller amount coming from Greenwood fund, last year's being for a period of considerably over a year.]

Reserve Fund. $1,500. [The Committee recommends this appropriation. Last year $1,000 was transferred to the Emergency Health Committee, $225 to the Fire Alarm, $75 to the Town Hall, $200 to the Police.]

Unpaid bills and deficiencies for 1918. $3,500. [An increase of $100 largely due to the unusual demands upon the Overseers of the Poor and the necessary expenses of the Emergency Health Committee. The balances amounting to $4,766.43 were used, as voted, to pay bills for 1918 which were not presented until after the books for the year were closed. The Committee further recommends that the unexpended balances for the year 1919 be appropriated to pay the deficiencies and unpaid bills of 1919.]

Water Department. The Committee recommends that the unexpended balance in the construction account amounting to $3,266.70 be continued and that the unexpended balance amounting to $3,904.75 in the maintenance account be applied to the payment of maturing Water Bonds. The uncollected accounts in the Water Department have been reduced to $4,836.71 from $6,742.27 in 1917.

ARTICLE 6

The Finance Committee recommends that the tax collector shall receive two-thirds of one percent of the tax warrant, that the practice of retaining 20 percent until total warrant is collected be given up as bond amply covers same. The compensation covers expenses except payment of bond.

ARTICLE 7

The Finance Committee recommends that the salaries of town officers remain as in 1918, except the Sealer of Weights and Measures shall receive $150. This increase is recommended as the Committee believes, after conference with the Sealer, that the position warrants same.

ARTICLE 8

The Finance Committee makes no recommendation.

ARTICLE 9

The Finance Committee recommends that the town accept the relocation of High Rock Street as laid out by the County Commissioners and ordered built by them in their decree dated December 11, 1917,* and that the sum of $20,000 be appropriated to build same, and also recommend credit to the amount which the County Commissioners will reimburse the town as provided in the amendment to Section 4, Chapter 719, Acts of 1913.

By the decree the town must build the street within two years from December 11, 1917.

The Selectmen have secured bids for the building of the road in a manner satisfactory to the County Commissioners according to plans and specifications prepared by the Engineer of the Commissioners.

---

*A minority of the members recommend that after the figures 1917 the words, "and that same be built under the provisions of Chapter 50 of the Revised Laws," be inserted.

ARTICLE 10

The Finance Committee recommends that the town issue its notes or scrip to an amount not exceeding $20,000 for a period not exceeding ten years in payment of the construction of High Rock Street as voted under Article 9.

ARTICLE 11

The Finance Committee recommends that the sum of $500 be appropriated to provide for the welcome and entertainment of returning soldiers in such manner as the Board of Selectmen may direct.

ARTICLE 12

The Committee recommends that such a committee be appointed considering that the subject-matter of the article constitutes one of the most serious problems confronting the town at the present time. The Committee recommends that this committee of five be made up of a member of the Board of Selectmen, a member of the Finance Committee, a member of the Board of Trade, a member of the Citizens' Committee on transportation, each to be chosen by their respective organizations, the fifth member to be a citizen appointed by the Moderator.

ARTICLE 13

The Committee recommends that the sum of $1,000 be appropriated for the use of the committee, as recommended under article 12.

ARTICLE 14

The Committee recommends that the sum of $400 be appropriated for the supervision of the Avery School playground as in 1918.

ARTICLE 15

The Committee makes no recommendation.

ARTICLE 16

The Finance Committee recommends that the town appropriate a sum not to exceed $3,000 for the purchase and installation of a Compressed Air Fire Alarm Signal, same to be expended by the Board of Selectmen and Chief of the Fire Department.

The Finance Committee have received specifications and prices for two types of signals.

The Gamewell Fire Alarm Telegraph Company have submitted an approximate price to install a Gamewell Diaphone outfit complete for the sum of $2,000. They guarantee the Diaphone Horn Unit to be of sufficient capacity to be heard in the confines of Needham. The action is entirely automatic, requires much less pressure, and therefore is less expensive to operate. This company has installed many of this type and same have given satisfaction.

R. W. LeBaron of Arlington has submitted an approximate estimate of $3,000, to install a LeBaron Compressed Air Whistle. This whistle is being used in Wellesley, Dedham, and Natick in a satisfactory manner.

ARTICLE 17

The Finance Committee recommends that the usm of $1,500 be appropriated for the use of the Glover Home and Hospital for the current year.

ARTICLE 18

The Finance Committee recommends that the Water Department be instructed to pay the fire insurance premiums on property of the Water Department from the revenue of that department.

ARTICLE 19

The Finance Committee recommends that the Water Department be instructed to reimburse the insurance account for premiums on fire insurance on property of the Water Department for years 1916, 1917, and 1918.

ARTICLE 20

The Finance Committee recommends that the town authorize the Selectmen to convey [subject to the easement given the N. Y., N. H. & H. R.R.] to the Edison Electric Illuminating Company of Boston a right of way for transmission of lines for a sum of not less than $1,000.

ARTICLE 21

The Finance Committee recommends that the appropriation be made in the manner called for in the article in the warrant. This assessment is made by the County Commissioners as Needham's share in the expense of erecting the Norfolk County Hospital for the treatment of Tuberculosis Patients at Braintree Highlands at an expense of $360,000. It may be of interest to know that Wellesley's share is $29,131 and Dedham's $24,301.

ARTICLE 22

The Finance Committee makes no recommendation.

ARTICLE 23

The Finance Committee recommends that such a committee be appointed to include the members of the School Committee, a member of the Board of Selectmen, a member of the Finance Committee, to be chosen by these boards, and three citizens, one of whom may be a woman, to be appointed by the Moderator.

ARTICLE 24

The Finance Committee makes no recommendation, as the special act under which this appropriation was made in 1918 provided for expenditures for this purpose only during the continuance of the war.

ARTICLE 25

The Finance Committee recommends that the town report be printed and distributed as voted last year. The committee does not recommend the printing of the Assessors' valuation list. The saving this year was $498 exclusive of the expense and time of the Assessors in preparing same.

ARTICLE 26

The Finance Committee makes no recommendations.

REPORT OF THE SCHOOL COMMITTEE

To the Citizens of Needham:

During the year the schools of the town have made real advance. Mr. West began his service with us July 1st and immediately made his influence felt in progressive measures and in leadership of the Committee toward larger service of the schools to the town. We cordially support the superintendent in his plans for the present and for the future. These plans have been discussed fully with the Committee and they are eager that the Superintendent shall have as well the confident and united support of the community in them.

The ambitions of the Committee for the immediate future include:

A new school building at Needham Upper Falls;

An addition to the High School, that the curriculum of the school may be enlarged and improved;

More liberal salaries to the teachers, since under the current shortage of teachers the profession is emancipating itself from the notion of charitable service that has been prevalent hitherto;

More exact knowledge of the results of instruction;

A larger health education;

A spirit of confidence and co-operation working in the community through the School Committee, the Superintendent, and every principal and teacher of the force.

Controversies of the Year

In several matters, too familiar to mention here, the Committee has met active opposition from some of the citizens of the town. No member of the Committee regards himself or herself as exempt from intelligent and constructive criticism, or regards the administration of the schools as so far perfect as not at one time or another to need the suggestions of members of the community.

On the other hand, much school business is delicate and subject to serious damage and prejudice if brought into

public discussion. Often it is impossible for the Committee to state publicly, without detriment to persons concerned or to the schools —which eventually means the children attending them — all the reasons for its action. The town must be careful to elect to membership on the School Committee only those men and women whose judgment they trust, and then be willing to leave to them and to the Superintendent the management of the schools. In our town the office of school committee member carries no salary with it, it leads to no political office, it brings only a large amount of work in a department of public service which is nearest to the hearts of the people — the public schools.

Our schools have a capable and devoted body of teachers and thoroughly competent supervision; adequate funds are gladly voted in town meetings; all that is now needed to make the schools the pride of the town is steady, sympathetic, and outspoken support of the administration. The administration of the past year has been single in its purpose to advance every higher interest of the schools of Needham and it believes that the future will justify its aims and achievements.

With an annual election of at least one member of the Committee and free recourse for counsel to the state educational officers, little permanent harm is likely to come to the schools from any action of the Committee that is not fully understood by the public and which, in the interest of the schools, cannot be publicly discussed. Public controversy usually is protracted, filled with personalities and with recriminations, and results in bitterness and divisions that may not be removed in years.

A suggestion to the Public Concerning the Business of the Schools

In law and in our constant practice the Superintendent is the executive of the schools. Suggestions and complaints regarding the service of the schools should go first to him — not to the Committee. Commonly he makes prompt and final adjustment of the matter; but should conference with the Committee be necessary, the matter will come up in regular order at a monthly meeting, or at an emergency meeting called for the special purpose.

The Committee has endeavored to make it possible for the Superintendent to be very much in the schools. A clerk

has been provided in his office, and now he ought to have a readier means for visiting the schools in the town and for making trips to neighboring towns and cities in search of teachers and in transaction of other business. A Ford automobile is needed and will be included in the annual budget. In our judgment it is poor economy for the town to pay for the expert service of a competent superintendent and deny him the means of applying this service to the schools in the quickest and most efficient way.

Respectfully submitted,

ARTHUR H. WILDE, *Chairman.*

REPORT OF THE SUPERINTENDENT

To the School Committee of Needham:

I herewith submit my first annual report of the schools of Needham. This report is according to custom addressed to you, but I intend it to be for the information of every citizen in the town. I have written it with the idea that every citizen will welcome a fair statement of facts concerning our schools. I am perfectly aware that not all of the bad conditions can be remedied at once, but I believe that we must begin immediately a constructive program of school betterment. This report will, therefore, consist of a brief survey of our schools as they are, a record of the improvements which have been made during the past year, and a program for the future.

We should, in the first place, get clearly in our minds the fact that Needham has been growing very rapidly during the last decade. In 1910, the population was 5,026. This had increased to 6,542 in 1915 and the Water Commissioners in 1918 estimated the population at 7,250. This is certainly a very conservative figure to take for the 1920 census. The town will, therefore, show a growth in 10 years of 44%. In the period from 1909 to 1919 the valuation has increased from $5,806,960 to $9,893,920 a gain of 70%.

The school membership on Sept. 30, 1909 was 1,021. On Sept. 26, 1919, the membership was 1,484, an increase of 45% or practically the same as the increase in population. While the membership has increased by 463 pupils in ten years, only one new building (Stephen Palmer) has been constructed which is supposed to accommodate 350 pupils. These figures in themselves indicate why we are now facing such a serious problem of congestion.

Now let us examine each building carefully to determine its actual condition and by such examination to formulate a definite program.

High School

The report of the High School Principal gives in detail the condition and needs of the High School. It is interesting to note that while the population and the total school attendance have increased about 45% in 10 years, the High School membership has gone from 156 on Sept. 30, 1909, to 195 on Sept. 26, 1919, or an increase of just 25%. This year the total enrollment has for the first time reached 200. In 1912 the Superintendent of schools said in his annual report, "The next school year, on account of the rapid growth of the school, study pupils will have to sit in every recitation room and will probably fill them. This means that in a few years the school building will not be large enough to receive all the pupils desiring a High School education, and the town will be obliged to add to their present building or to construct a new and larger one." The school did not grow as rapidly as was expected partly because of war conditions no doubt, and partly because the school has not broadened its course of study. The school has been preparing pupils to go to college or to normal school, has given a good training to girls who wished to take up clerical work, and has given a general education to those others who had no definite vocation in view. But it has entirely neglected manual work for boys, domestic work for girls, and physical training for both. These things have not been offered because there has been no room nor equipment for them. Their lack has kept the size of the school down, and the size of the school has seemed to indicate that no new building was necessary. Now, however, we have reached a point where the building is not large enough for the school as it is. We should therefore, plan for an addition which will give us necessary classrooms, space for Manual Training, Domestic Science, and a Gymnasium.

I do not mean that we should set up a vocational or a trade school. In a town like Needham I believe that the aim of Manual Training and Domestic Science should be broadly educational, not primarily vocational. We should not intend to train carpenters, printers, or dressmakers. But we should intend to give boys of High School age an opportunity to learn to use tools and simple machinery, to make furniture for themselves, and to do various kinds of repair work. Boys need to express themselves through their hands. We should

intend to give to the girls a knowledge of the rudiments of sewing and cooking, of household sanitation, marketing, etc., and to foster a taste for these things. Our high schools have in the past done too much preparing for college and too little preparing for life. It is time to serve "all the children of all the people."

It would hardly seem necessary to present lengthy arguments for a gymnasium. The war showed us how lax we had been in training our boys along physical lines. Here in Needham we have no place for general physical drill and no place for indoor sports in the winter. Athletics serve only a limited few and they are usually the strong pupils. A great majority, especially the girls of High School age, get very little physical recreation or opportunity for the development of the body.

Such an addition to the High School could also be made to solve the problems of congestion which confront us in three other buildings.

Stephen Palmer

The Stephen Palmer building was planned for 35 pupils per room. On December 19 there was one room with 45, one with 44, two with 42, one with 39, one with 36, a total of 38 more than should be accommodated. This year one fifth grade was transferred to this building from the Kimball building to relieve the congestion there. This was made possible by having one teacher handle both Kindergarten classes, one in the forenoon and one in the afternoon thus using one room instead of two. Next year another room must be organized in the grades below the fifth to take the children mentioned above and the fifth grade must go back to the Kimball school. Let us see what effect this will have at the latter building.

Kimball

The Kimball building has 9 rooms occupied as follows:

2 divisions, Grade 8 of 33 and 30
2 " " 7 of 40 and 40
2 " " 7 of 44 and 31
1 " " 5 of 29
1 Manual training room
1 vacant room next to Manual Training room impossible to use because of the noise from the Manual Training.

Now it is impossible to do satisfactory work in a departmental organization with classes of 40 pupils. From 25 to 30 is all that one teacher can handle with efficiency. We can not hope to reach this ideal next year, but we are faced with the necessity of having two divisions of Grade 8, three of Grade 7, two of Grade 6 and two of Grade 5. This takes the nine rooms in the building and leaves no place for the Manual Training. We shall simply have to stop the Manual Training altogether unless some other place is provided for it. If the addition were made to the High School building the boys and girls from the Kimball School could go there for their Manual Training and Domestic Science one afternoon a week. They are getting only 80 minutes per week now in these classes, whereas they would then receive 120 minutes. We are fortunate in having a Drawing teacher who can teach the Manual Training. But she will need more of her time for Drawing next year and every day is taken now. We are also fortunate in having one of the regular teachers who can teach Sewing. Such a teacher is not easy to secure, however, and her time is also very limited. Under the new plan a special teacher for Manual Training and special teacher of Domestic Science would be employed at the High School to give full time and attention to these subjects. More complete work would inevitably result.

Old Avery

A condition similar to that at the Kimball building exists at the Old Avery School. There we have 6 rooms in the building occupied as follows:

Kindergarten	40	Grade 3	39
Grade 1	54	Grade 4	46
Grade 2	45	Manual training for pupils of the New Avery.	

It will be noticed that there are 54 pupils in the first grade. This year the Kindergarten teacher has helped out by taking some of these pupils in the afternoon, but it is impossible for the first grade teacher there to do justice to herself or to the children with so many even for one session per day. There are at least 12 pupils in the Kindergarten room who are old enough and advanced enough with a little extra help to go

into the second grade next year. This will mean a class of from 66 to 70 pupils which will make another teacher and another room inevitable. The only room available is the Manual Training room so that, as at the Kimball School, this room will have to be taken and the Manual Training stopped unless some other place is provided. If the room and equipment could be at the High School these pupils could go there for one afternoon a week just as the Kimball pupils could and the problem would be solved.

This proposed addition to the High School would then accomplish several results. It would:

1. Provide necessary room for ordinary High School work.
2. Make possible courses in Manual Training.
3. Make possible courses in Domestic Science.
4. Furnish a place for physical training and indoor recreation.
5. Solve the problem of congestion at the Old Avery school by allowing the Manual Training to be taken from that building.
6. Solve the problem of congestion at the Kimball School by allowing the Manual Training to be taken from that building.
7. Solve the problem of congestion at the Stephen Palmer School by allowing the fifth grade to be transferred to the Kimball School.

Whether this addition can be made to the High School building without involving unreasonable expense by alterations to the present structure is for a trained school architect to decide. The matter should be thoroughly investigated to find out all the possibilities and as near as possible the expense of a satisfactory plan. If it is found that the addition cannot be made with reasonable economy we shall have to solve our problems of congestion in some other way — either by the erection of a new High School building or of a Junior High School. I am of the opinion that in this event the best plan would be to erect a new High School building planned in such a way that additions can be easily made so that eventually we could have a six year school composed of all the pupils in the town above the sixth grade. This plan would make the

cost of administration small and would connect our seventh and eighth grades to the High School in an admirable manner. The six year school is finding more favor now than the two schools of three years each and is more economical in a town of this size. If a new building were erected now the present High School building could be used for the upper grades, thus relieving the Kimball building.

This involves an investigation of the deed of gift of the land for that building inasmuch as the land was given "for High School purposes only." Some arrangement can doubtless be made so that the building could be used profitably. The matter should be cleared up at once so that we may know how to make definite plans for the future.

Riverside

The condition existing at the Riverside School also make it imperative to construct a new building in that district. There are now 75 children going to school, 35 in the portable building which has traveled extensively over the town, and 40 conveyed by barge to the Eliot School. I need hardly say that the portable building is not fit for a permanent school. It is small, very difficult to heat, and all in all a makeshift. Neither do I need to comment at length on the advisability of conveying 40 children in one barge! We need at Riverside a three-room building with an auditorium. This would provide for growth for some time and would furnish a place for community and Americanization work. The actual cost of maintaining such a school would be little more than is now paid. We have one teacher now at Riverside. A second would be transferred to the new building from the Eliot school as 40 children would be taken from that building, and two-thirds of the salary of the third would be paid by the amount now paid for transportation which is $775 per year. The coal wasted in the attempt to heat the portable building would nearly heat a substantial three-room building. Nor should we forget the duty we owe these people who have come to this country to cast their lot with us. We may not see dividends in dollars and cents, but I believe that money spent for Americanization will be returned to us hundredfold in the influence which it will have in forming the common life of this democracy.

Repairs

In the foregoing discussion the point of view has been new construction necessary. Our old buildings are in need of rather extensive repairs to make them fit for a modern school. Not all of the necessary things can be done in one year. Moreover, it should be said that the buildings are in much better shape now than they were a year or so ago, especially in regard to the fire risk, because of the repairs that have been made by the order of the State Building Inspector. These orders were discussed in the report of last year.

During the coming year I recommend that steps be taken to increase the number of windows in the Kimball School. Experts differ as to whether the lighting area should be one-fourth or one-fifth of the floor area. Taking one-fifth as our standard, we find that the following conditions exist at the Kimball School:

	Area	Lighting Area	Correct Lighting Area
6 rooms	600 sq. ft.	98 sq. ft.	120 sq. ft.
1 "	1200 sq. ft.	162 sq. ft.	240 sq. ft.
1 "	1140 sq. ft.	147 sq. ft.	228 sq. ft.
1 "	1140 sq. ft.	126 sq. ft.	228 sq. ft.

Another window in each room would help this matter greatly. The Kimball School should also have electric lights on the second and third floors where none exist now. During November, December and January it is impossible for teachers to work in the building later than quarter of four and there are many dark days when the artificial light is necessary. Some work should also be done in the basements of this school to make them cleaner and more sanitary.

At the New Avery building, redecorating is necessary over the entire building. The walls and ceilings are dingy and dirty. Electric lights should also be installed in this building.

The lighting problem is also pressing at the Old Avery building. There the different rooms show the following conditions:

	Area	Lighting Area	Correct Lighting Area
2 rooms	970 sq. ft.	72 sq. ft.	194 sq. ft.
3 rooms	1025 sq. ft.	126 sq. ft.	205 sq. ft.

If possible more light should be provided for the two rooms in the third story where the windows are recessed and electric lights should be installed in the entire building.

The Dwight School is badly in need of new floors. The old floors are worn to splinters and it is almost impossible to keep them clean. Adjustable desks should be provided for this building when the floors are renewed.

The Eliot and Harris Schools should have more windows in each room and should have electric lights. These changes I recommend be postponed for a year.

To summarize: I believe our repair program during 1920 should include the following:

1. One extra window in each room at the Kimball School.
2. Electric lights at the Kimball School.
3. Improvement of basement conditions at the Kimball School.
4. Redecorating at the New Avery School.
5. Electric lights in the New Avery School.
6. More windows for the rooms on the third story of the Old Avery building.
7. Electric lights in the Old Avery School.
8. New floors at the Dwight School.

Teachers

Out of 45 teachers in the employ of the town last June, 12 resigned during the summer. One teacher was added to the Kimball school because of the increase in pupils and one was added to the High School for a similar reason and also in order to give a broader Commercial curriculum. A saving of one teacher was made at the Stephen Palmer School by having the two kindergarten classes handled by one person. Thus we have 46 teachers now on the list. Two breaks have occurred since September, namely — the resignation of Miss Damon at the Avery School to accept a position in her home town, and the resignation of Miss Smith at the High School at the end of the fall term to accept a better paying position in Marblehead. We are also to lose Miss Bernau from the High School in January as she has accepted the position as Head of the Commercial Department in Gloucester. The scarcity of teachers and the increases in salaries have made

the teacher problem more serious than ever before. Nevertheless, we have tried to maintain a high standard in engaging all the new teachers as the following list will demonstrate. Of the 16 teachers engaged since July 1, 6 were graduates of colleges, 7 of Normal Schools, 2 of special training schools, and 1 of High School with considerable summer work and experience.

Teachers elected from July 1, 1919 to Jan. 1, 1920

	School	Education	Experience to Sept., 1919

It is very evident that we cannot hold our present teachers nor keep up a high standard in securing new ones unless we raise our salary schedule materially. The following figures show why increased pay must be forthcoming:

Since January 1, 1916, the cost of living has increased from 75 to 100 per cent.

During the same period industrial wages have increased from 50 to 100 per cent.

The average salary of the teachers in Needham in September 1916 was $795.

The average salary in September 1919 was $1,014, an increase of only 27.5 per cent.

The average salary in January 1920, if the plans of the committee are carried out, will be $1,135, an increase of 42.7 per cent over September 1916.

There are 20 teachers now serving in the Needham schools who were teaching here in September 1916. The average salary of these twenty at that time was $765. Their average salary in September 1919 was $955, an increase of only 24.8 per cent. Under the new schedule their average salary in January 1920 will be $1,125, a gain of 47 per cent over September 1916.

In round numbers, therefore, it seems safe to say that whereas the cost of living has increased at least 75 percent in the last year, the salaries of our teachers have increased about 25 per cent.

We have, therefore, adopted a salary schedule which I present herewith.

Salary Schedule

I. Grade teachers (Sub-Primary to Grade 6 inclusive)
   (a) Minimum salary,—$800
   (b) Automatic yearly increases of $50 to be granted to all teachers with less than 5 years of experience and $100 to all teachers with 5 years of experience or more to a maximum of $1200.
   (c) A bonus for one year of $25 to be granted to any teacher who satisfactorily completes a summer course in a Normal School or College, or who does an equivalent amount of work through extension courses provided the course is approved by the Superintendent before being undertaken by the teacher. This bonus is to be given for the year following the completion of said course and does not constitute a permanent increase of salary.
   (d) An additional increase of $50 in any one year may be granted on the recommendation of the Superintendent to any teacher whose

work is considered of especial value to the schools.

(e) An additional increase of $50 in any one year above the $1200 maximum may be granted to a teacher on the recommendation of the Superintendent up to a super-maximum of $1300 for faithful and intelligent service, professional growth, or for work of especial value to the schools.

II. Departmental grade teachers.
(a) Minimum salary,—$850.
(b) Increases as under (I–b) to a maximum of $1250.
(c) Same as (I–c).
(d) Same as (I–d).
(e) Additional increases as under (I–e) to a super-maximum of $1350.

III. High School teachers.
(a) Minimum salary—$850.
(b) Increases as under (I–b) to a maximum of $1300.
(c) Same as (I–c).
(d) Same as (I–d).
(e) Additional increases as under (I–e) to a super-maximum of $1400.

IV. Elementary Principals (Eliot, Dwight, Harris) to be on the same basis as departmental grade teachers. (II).

V. Elementary Principal (Stephen Palmer) is to be on the same basis as High School teachers (III).

VI. Special Supervisors are to be on the same basis as the High School teachers (III).

VII. Men Elementary Principals and Men High School teachers.
(a) Minimum salary—$1500—increases to be determined annually by the Committee.

VIII. High School Principal.
(a) As determined annually by Committee.

Special Provisions

I. All teachers with 5 years of experience who have taught in Needham one year previous to September 1919 to be raised to $1000 to date from January 1, 1920. (Elementary Principals Harris, Dwight, and Eliot, to $1050; Stephen Palmer to $1150).

II. In addition to these increases, a flat increase of $100 per year to be given to all teachers to date from January 1, 1920.

III. The regular automatic increases of $100 as provided in the salary schedule to be given in September 1920 in addition to the special increases granted as of January 1st.

IV. Hereafter, all salary increases will take effect in September of each year except such special increases as are deemed advisable under Sections (d) and (e) of each division.

This schedule has many merits. It provides definite maxima, automatic increases, special return for special work, and elasticity in dealing with special cases. Considering that towns and cities all about us are granting raises from $200 to $600, to take effect January 1, these increases are the very least we can do.

Under this program the increases in January, 1920 will be as follows:

5	teachers	$250
13	"	200
2	"	150
24	"	100

(Average increase—$149).

The increases have been planned in this graduated way because it seemed fair that the teachers of experience who had served Needham well, should be increased before the teachers who have been here only a short time. Moreover, it was absolutely necessary last summer to pay some new teachers

more than was being paid to other teachers in the town in similar positions. I am happy to say that this schedule has been approved by the Teachers' Club. To do less will mean permanent injury to our entire school organization.

Next year we shall be obliged to have at least three more teachers, two at the Kimball building and one at the Old Avery. In the event of the addition being made at the High School and the construction of a building at Riverside we should plan for a Manual Training teacher, Domestic Science teacher and an extra teacher at Riverside. We should also engage a teacher to spend her entire time on Americanization. This work has been brought to the front and made easier for the individual towns of the State by the passage of an Act in 1919 whereby the State will reimburse the town to the extent of one-half of the sums expended by it for this purpose. During the war some Americanization work was done in Needham. It was thought that we could continue that work this year and that our regular teachers could conduct evening classes for women at their homes. Through no fault of the teachers the classes dwindled away. The problem is too special to be handled in this way. If we are going to do anything at all we ought to have one teacher to devote her entire time to the work. She could then take care of all the classes in the town; could conduct work for women in the afternoon when it is easiest for them to get out; could teach the men in our evening school; and could get into the homes to do social work. We have thought too long of public education as something for children up to a certain age. We must tackle the problem connected with the foreign born in a different spirit and give him every opportunity at any age to really become one of us.

Tests and Measurements

Most notable progress in education during the last decade has been made in the formulation and use of scientific tests and measurements. We have in the past lacked standards with which to measure our educational products. We have also lacked means by which to measure a pupil's real ability. Opinion has played a large part in these matters and without doubt much injustice has been done. There has been no definite way to tell whether the children of one town were

equal to the children of another, because no standard measurements were in existence. During the last decade great strides have been made in this field and now we have standard tests and scales in all of our fundamental subjects. These tests have been carefully formulated and the standards obtained from experimentation with thousands of children. They are yet far from perfection but they are well worth our time and study. The mental ability tests have been given an added impetus by the psychological tests given in the army. The tests were there very useful in selecting officer material. We know that the various tests do not always give an absolutely correct result, but we believe that they are better than any thing we have had before.

Three tests have been given in Needham this fall — the Otis Intelligence Test to grades 6, 7, 8 and the High school — the Courtis Arithmetic tests in the fundamental operations in arithmetic to grades 5 to 8 — and the Courtis Spelling Test to grades 3 to 8. The Otis Test is given to a whole class at once, the test taking about one hour. It consists of ten different exercises testing ability to follow directions, to make comparisons, to reason, to remember, etc. The results obtained have been very helpful to the teachers in their attempts to judge pupils correctly. They have also helped us to pick out a few pupils who would profit by a double promotion. After they, or tests like them, have been given again we shall have even more accurate information because of comparisons that can be made with these first results.

The Courtis Arithmetic test (Series B) consists of a set of examples in Addition, Subtraction, Multiplication, and Division like the following:

Addition	Subtraction	Multiplication	Division
297	87939983	3597	52 | 44252
925	72207316	73	
473			
983			
315			
661			
794			
177			
124			

The time allowed for each test is 8 minutes for Addition, 4 minutes for Subtraction, 6 for Multiplication and 8 for Division. The time allowance is the same for all grades from 5 to 8, but of course the standard of accomplishment advances from grade to grade. The following table shows what records the Needham pupils make on the first test given this fall. The figures in Rate and Accuracy represent the Median of the class which is the point above which and below which are one-half the class. Efficiency represents the per cent of children who were able to do the number examples required for that grade with 100% in accuracy.

Let me give a sample reading and interpretation of these figures. In Grade 8 in Addition the standard for the grade in the preceding June was 11 examples in the time allowed and 12 examples for next June. The median this fall should therefore be between these figures, but we find on looking at the table that the median rate was only 8.8. The next column shows us that the Accuracy of Grade 8 in Addition was 69%, a poor accomplishment. Looking on we see that only 1.1

per cent of the children were able to do the number of examples required for the preceding June with 100% accuracy and the next column shows that no children were up to next June's standard. This gives a small sample of what can be extracted from these tests. As a whole the tests showed that much drill in the fundamental operations of Arithmetic is necessary in Grades 6, 7, 8. Grade 5 shows a creditable record. This seems to indicate that the upper grade teachers have perhaps slighted drill work and have spent more time on problem work. Reasonable speed and accuracy are essential tools in ordinary life and are perhaps more important than the ability to solve some of the jaw breaking problems which we used to find in the Arithmetics. We have already introduced into some of the grades the Courtis Practice tests and the Studebaker Practice material which we expect to bring up the work in the fundamental operations without the expenditure of an undue amount of time.

It can be seen that such tests as these give the teacher much help not only in regard to the work of the class as a whole, but in respect to the work and needs of individual pupils. In fact they give an added impetus to the effort that is being made more and more to serve the needs of individual pupils rather than to fit him to the needs of the mass. If a pupil is up to grade in one process and below in another the teacher may allow him to spend extra time on his weakness. Again, if a pupil is up to grade in an entire subject and below in another he may be excused from regular drill and allowed to spend his time on his weak subject. These tests give us accurate information as to the standard for each grade, something which we have never had before. There may be many things about the school and its products which cannot be measured, but that should not prevent us from measuring those products which are measurable.

The Courtis Spelling tests are based on Ayres' list of the thousand words most common in the language. In the past we have been teaching altogether too many spelling words with the result that the teaching has not been thorough and pupils have not acquired a perfect mastery of the essential words which they use over and over again. These tests which were given from grades 3 to 8 consist of ten sentences in which are twenty-five test words. The tests are given in sentence

form because in that way the pupil is working more nearly under conditions which he will meet in life. There he is not asked to spell words in lists but uses them in sentences where his mind is on the thought to be expressed rather than on the spelling of particular words. The table below shows how the Needham schools compared with Detroit when given there for the first time. It will be seen that in Spelling our record is excellent — very much better than the Arithmetic record.

	NEEDHAM		DETROIT	
Grade	Average Accuracy	Per cent Perfect	Average Accuracy	Per cent Perfect
8	72	2	75	1
7	84	14	82	6
6	80	6	78	6
5	84	9	69	1
4	80	7	76	4
3	72	11	65	2

From my observation so far and from the results of the tests given I think it can be said with accuracy that our schools are doing excellent work in Reading and Spelling and Penmanship, but that more emphasis must be put on Arithmetic and Language. Our teachers are cognizant of these facts and are working splendidly to improve the weak places.

Course of Study

Because of the change from the nine to the eight grade system last year, we found this fall that the Course of Study needed to be revised. This task has been undertaken jointly by the teachers and superintendent. We believe that a Course of Study should not be handed down from above, but that the teachers themselves with their close contact with classroom problems should have a large share in shaping the requirements. The teachers were, therefore, divided into committees for different subjects and set about collecting data from other school systems, from books, and from their own experience. All have worked with a will on this task and when it is completed I believe that we shall have a Course that will be of great practical value to our teachers. The Reading and Language are practically complete and the other subjects will be finished very soon.

Textbooks

I found it necessary this fall to purchase complete sets of Language books for grade 5 as this grade seemed to be without books. The book introduced was Oral and Written English by Potter, Jeschke, and Gillet. This book has proved very satisfactory and I recommend that it be extended to all the grades from 3 to 8 as soon as books are needed. New Arithmetics will have to be purchased for some of the grades during the next year. The eighth grade is also in need of a practical Civics. For this work I recommend Dunn's "Community and the Citizen" which places the emphasis on good citizenship rather than on the machinery of government. The lower grades are well supplied with reading material, but more is needed from grade 5 to grade 8. We also need some practical science books in grades 7 and 8. There are some excellent books on the market now which will make our nature study much more systematic and worthwhile than it has ever been. In the High School a new Economics text should be introduced as well as some new histories. I have only mentioned the outstanding needs. Other needs may appear from time to time which will have to be met because of wornout books, increased classes or new work.

Parent-Teacher Association

Mention should be made that the Parent-Teacher Association has held two very well attended meetings during the fall term this year. The first meeting was held in October and took the form of a reception to the new teachers. Informal speeches were made by the Superintendent of Schools and the High School Principal. At the December meeting Messrs. Campbell, Waldron, Peters and Miss McCann presented facts concerning the actual physical conditions of their schools. Superintendent West outlined in connection with these facts the new building program which the school authorities had in mind. There were also interesting physical exercises from the Kimball School at this meeting. The Association has over 100 members and invites all who are interested in the schools to join. The officers are as follows:

President, Benjamin D. May.
First Vice-President, Mrs. R. B. Hill.
Second Vice-President, Mrs. Walter Proctor.

Secretary, Mary E. Glancy.
Treasurer, James M. McCracken.
Asst. Treasurer, Mrs. Philip A. Rand.
Auditor, Francis Stanwood.
Member of Scholarship Fund, James H. Whetton.

Income Tax Distribution

Mention should be made in this report of the law passed by the General Court in the session of 1919 providing for the distribution of a portion of the income tax for the purpose of improving the public schools. In brief, this law provides for the setting aside of a portion of the proceeds of the income tax to reimburse cities and towns for money paid out for salaries to teachers according to the following regulations:

1. Two hundred dollars for each full-time teacher who has received a salary not less than eight hundred and fifty dollars and who is a graduate of an approved normal school or college and has had at least two years' teaching experience or who possesses preparation and teaching experience accepted in lieu thereof.

2. One hundred and fifty dollars for every person, not included in (1) who has received a salary not less than seven hundred and fifty dollars and (a) who has satisfactorily completed one year of professional training and has had at least three years of teaching experience; or (b) is a graduate of an approved normal school or college, and has had at least one year of teaching experience; or (c) who possesses preparation and teaching experience accepted in lieu of these requirements.

3. One hundred dollars for every such person, not included in either of the above paragraphs who has received as salary not less than six hundred and fifty dollars.

An examination of this law will show that in some cases salaries of teachers can be raised without additional expense to the town. For instance, a teacher with education and experience to qualify her for acceptance in Section (1) would bring to the town only $150 if her salary were $800 whereas the town would receive $200 if her salary were $850 which would make no increase to the amount really paid to her by the town. In 1919 the amount received by Needham under this law was $7,530. In 1920 we shall receive, if the proposed salary schedule is put into effect, $9,030 or an additional amount of $1,500. We have 47 people who draw reimbursement under this act so that the maximum which we could receive if all were in Section (1) would be $9,400. It is of course wise in hiring new teachers to secure those with education and experience to entitle the town to the maximum amount of reimbursement.

Budget for 1920

The School Department has a deficit of about $1,600 for the year 1919. New teachers engaged during the summer had to be paid larger salaries than heretofore. There were also unexpected expenses due to the necessity of purchasing three new typewriters at the High School and 30 new desks for the fifth grade room at the Stephen Palmer School. The employment of a second man in the High School also increased the payroll. The appropriations simply did not leave margin enough for these extras, but the Committee believed that the results would justify the expenditure, especially as $1,500 was turned back into the town treasury last year. Under normal conditions the Department should plan to live within the amount granted by the town even to serious curtailment of expenditures that seem necessary to keep the schools up.

The school budget for 1920 calls for approximately $20,000 more than was appropriated for 1919. In the itemized budget herewith appended may be seen the amounts asked for and opposite each the amounts expended in 1919. About $15,000 of the increase will go for teachers' salaries. I have already

explained the schedule and I only reiterate here that I believe it represents the very least the town of Needham can do and expect to keep the schools at the present standard. It should also be remembered that the growth of the schools has demanded the employment of extra teachers. In September, 1920, there will be at least five more teachers than were in the employ of the town in January, 1919. Expense of Administration shows an increase of about $2,000 due to the automobile requested and to the employment of a clerk for the entire year. A clerk in the office of the Superintendent is a necessity and the Superintendent is thereby made more efficient by having proper time to visit schools and to attend to his general duties of direction. An automobile could be used by the School Department to great advantage. With no cars to the Dwight, Harris, and Riverside Schools much time is now wasted in getting to them. The machine could also be used by the attendance officer thus saving the five dollars per month which is paid to him for transportation. A saving could also be made in the purchase of supplies by buying in larger lots and distributing from the office rather than buying for each individual school. Expense of operation shows an increase of about $2,000 for advances to janitors' salaries and for higher price for fuel. These additions are inevitable in these times of high prices. The other accounts have been kept very close to the actual expenditure of the past year although of course more money could be expended to advantage especially for repairs.

The following figures taken from the 1917–18 report of the State Board of Education (latest figures available) give us some rather interesting information concerning Needham and its expenditures for schools. In 1915 Needham was the 87th community in the State in size. It was 65th in valuation as taken in 1917, there being 25 towns in the state with larger population and smaller valuation and only three towns in the state with smaller population and larger valuation. Thus the town is favorably situated in the comparison of its wealth to its population. Needham has a large number of pupils per valuation, however, so that in valuation per pupil it ranks 129. We ought then to rank as well as 129 in our expenditure per pupil. We find, however, that in 1917–18 we ranked 242nd in expenditure per pupil, and in expenditure per $1,000

of valuation the town ranked 196. These figures simply show that in expenditures for schools the town in that year did not do as well as would have been expected.

I also call attention to Table IX in this report which shows the expenditures of the State for the school year 1917–18 classified as to use per $100 of expenditure with the corresponding figures for Needham for the fiscal year 1919 and the figures for 1920 under the proposed budget. It will be seen that in 1919 our expenditures were relatively below those of the State in Fuel, Janitor Service, General Control, Tuition, Miscellaneous Expenses, and Salaries:—and above in Textbooks and Supplies, Repairs, Transportation, Promotion of Health, and Libraries. The budget for 1920 will bring us above in Salaries, Textbooks and Supplies, Repairs, General Control, Transportation, Promotion of Health and Libraries. The general tendency is a relative decrease in expenses of operation and maintenance and an increase in salaries in the expenditure of the school dollar which is to be expected at the present time.

We have been fortunate this year in having the services of the district nurse with no expense to the town. I believe the town should appropriate a definite sum for this purpose so that we may be assured of this service. The nurse has been very helpful to the teachers and school physicians, and has done much to help form hygienic habits among the children and in follow-up work in the homes. Chapter 72, Acts of 1911 provides as follows:—"Towns are hereby authorized to appropriate annually a sum not exceeding two thousand dollars for the employment of district or other nurses. The said sums may be expended directly by the town through its Selectmen, or under the direction of the Board of Health when authorized so to do by the Selectmen." I suggest that the town appropriate $600 for this purpose for the year 1920.

Conclusion

In conclusion I wish to express my sincere appreciation of the support and help which has been so freely granted me by the School Committee. Your counsel has aided me greatly in the difficult task of getting acquainted with a new school system. I believe that we have in Needham the opportunity to build up a splendid school organization. We have a homogeneous population; the town has large valuation per population; and there is every prospect of continued growth. I have found the teaching force progressive and eager to grasp new ideas in education. We need new buildings and continued effort to improve and make more efficient the every day teaching. Most of all we need the spirit of boosting in the town itself which will recognize what good things we have already and be eager to go forward to greater accomplishments. We may find that different people have contrary ideas as to what is best for the school system. But if we are willing to work together in a spirit of consideration for all sides of a question the very difference in ideas helps to form a more accurate judgment. If we have honest motives and a sincere desire to press forward a difference of opinion is no detriment. But we must remember that the final basis of all our acts must be the good of the children in the schools. They must have first consideration and all other things must come second. I look forward hopefully to much advance in the schools of Needham within the next two or three years.

Respectfully submitted,

Roscoe L. West,

Superintendent of Schools.

REPORT OF THE HIGH SCHOOL PRINCIPAL

Superintendent R. L. West:

I herewith submit the annual report of the Needham High School.

In the class of 1919, the following pupils were graduated:

	Present Occupation
Maud C. Betts	Office Bethesda Society
Louis H. Bowmar	Boston University
Doris E. Carter	Boston Normal Art School
Velma W. Carter	At home
Ruth D. Coulter	B. U. Secretarial Science
Helen K. Durbin	Married Jan. 1, 1920
Ralph C. Eichler	Norwich University
Laurance E. Eaton	Norwich University
Jennie E. Evans	At home
Herman Faust	Huntington School
Lester D. Hunt	Office work
Katherine M. Hughes	Office Hazen-Brown Company
Florence E. Gordon	Office Supt. of Schools
Clarice M. Godfrey	Office Saxony Knitting Mills
Randolph F. Latham	Boston University
Marion H. Lyons	Newton Hospital
Elizabeth Peterson	At home
William J. Preskenis	Working for his father
Alfred F. Ronney	Norwich University
Mabel L. Richardson	Needham Trust Co.
Florence L. Sobiesky	Proofreader (Chronicle)
Gladys E. Sonnenberg	Boston University
Helen V. Thompson	Framingham Normal School

The enrollment for the year is as follows: freshmen 81, sophomores 59, juniors 31, seniors 31, post-graduate 1; total 203. Of this number 18 have left school leaving a present

membership of 185 as compared with a total enrollment of 186 last year.

Of the 18 who left school, 7 left to go to work, 4 moved out of town, 2 died, 2 left on account of ill health, 1 was married, 1 entered business college, and 1 went into a nurse's training school. The school regrets deeply the death of Carl Thorpe of the sophomore class and of Miss Elizabeth Preble of the freshman class. Both were pupils of ability and both had made many firm friends — Thorpe by his sunny disposition and his cheery helpfulness, and Miss Preble by her faithful work and her sterling character.

One new teacher has been added to the faculty in order to look after the increasing membership of the commercial department. In addition, two other positions have had to be filled as the result of resignations presented during the summer. In every case, the new members of the faculty have done excellent work and have already made places for themselves in the life of the school. Particular mention should be made of Mr. Frost, who successfully coached and managed the football team, as well as doing highly creditable work in in the history classes. While all of these changes, as well as the two resignations of Miss Smith and Miss Bernau, now in the hands of the committee, have been caused by offers of higher salaries and more responsibilities in other schools, and are, in a sense, a compliment to the character of the Needham teaching force; still the result is unfortunate from the viewpoint of the best interests of Needham High School. On Feb. 1, 1920, in a faculty of nine there will not be a single teacher who was in the school prior to Sept. 1918, and only three who were in the school previous to Sept. 1919. Even if we could assume that in every case we are fortunate enough to replace every teacher who leaves by one equally as good, still the loss of time and energy spent in forming new relations between teachers and pupils is a decided hindrance to the real efficiency of the school. If Needham is to be more than a training school for the surrounding communities, a determined effort must be made to retain the services of all teachers whose work has proved efficient. The school board has already recognized the seriousness of this situation and has taken steps looking towards a solution of the problem; but as long as surrounding towns are raising salaries by increases of from

$200 to $600, it is not going to be an easy task to retain efficient teachers.

The most serious difficulty, however, that we have to confront is that of an inadequate building. We have at present five standard sized classrooms, two smaller rooms suitable only for the smallest classes, two laboratories, and the assembly hall. All of these rooms are at least 10% under lighted, some of them far worse. One of the smaller rooms has been given over to typewriting and contains 16 machines and a Neostyle in a floor space about 12 x 23. The last machines were placed on a shelf against the wall in order to save the space that the regular tables would have occupied. More machines will be needed as our classes grow in size, but we have already reached the limit of our present available space.

The physics laboratory, in its present form can be used solely for small classes at work on experiments. Removal of the partition would enlarge the space and make it a feasible room for lecture or class work. The chemical laboratory has had to serve for a recitation room, but ought never to be used for the purpose on account of its very inadequate lighting. It is also vitally necessary that a gas system should replace the alcohol lamps used at present. Most experiments requiring heat are handicapped and many cannot be performed at all with the present equipment.

We now have nine teachers in the school building. We are holding classes, not where they ought to be held but where room can be found for them. We graduate this year a class of 31, and in 1921 probably about the same number; each of these years we can expect an entering class of 80 to 90 pupils. This fall, for the first time in its history, Needham High has an enrollment of over 200. Back in 1912 when the school had about 160 pupils, Superintendent Keyes pointed out that as soon as the 200 mark was reached, the present building would not accommodate such an enrollment. That time has been delayed owing to war conditions, but it is now upon us. Next fall we can expect to have 225 pupils and 250 in Sept. 1921. Nor is this growth in the immediate future the main consideration. I would call to your attention the following table:

Year	Population of Needham	Total School Enrollment	Total High School Enrollment
1908–09	4,748	1,067	154
1909–10	....	1,121	160
1910–11	5,026	1,137	171
1911–12	....	1,198	147
1912–13	....	1,167	169
1913–14	....	1,272	188
1914–15	6,542	1,341	182
1915–16	....	1,342	187
1916–17	....	1,389	184
1917–18	....	1,494	162
1918–19	....	1,580	186
1919–Dec. 19	7,250	1,563	203

It is apparent that, while the town population and the school enrollment have maintained a steady growth in this period, even to almost an identical percentage of increase, the High School membership has fluctuated and lagged behind. Thus, while the school enrollment has grown about 50% and the population of the town more than 50%, the High School has barely grown 25%, and has constantly shown a smaller membership than it should.

I believe that much of this poor showing, can be attributed to the narrow range of courses offered. This school can fit pupils for college and it can train girls for office work and it has done both these things decidedly well. It ought also to do other things equally as well. It is not the duty of a community of this size to offer trade school courses, for these must be left to larger towns; but it is a fair assumption that our girls should learn to sew and cook, to make their own hats, to learn to buy economically and to manage a home efficiently — in short to take the work offered by a good course in Domestic Arts. It is also a fair assumption that our boys should be given a chance to continue the work in Manual Training already begun in the grades, not only for the practical benefit they will receive, but also that they may understand the good American doctrine that "he who works with his hands is of no different or higher caste than he who works with his brain" and that true education should include training for both kinds of service. We need also a gymnasium

where, under proper guidance, the physical training of our pupils can receive its proper recognition.

All this means one of two things: either a large addition to the present building, or a new building entirely. One of these solutions must be adopted if we are to properly care for the growing numbers of the High School, and if we are to meet the new demands for a broader and a better course of study. Because this seems to me so vital and so essential a condition of our future success, I have given its consideration much space that I might have filled with accounts of our minor problems and minor successes.

In conclusion, may I express to you and to the School Board my sincere appreciation of your earnest and efficient co-operation in all we of the High School have tried to do?

Respectfully submitted,

GILMAN H. CAMPBELL,
Principal.

The Treasurer's report will show the income from all sources, the operating expenses and the present financial condition.

The past year has shown the hospital operated under joint management with the visiting nurse association. Whether this change has been of any benefit to either effort or whether it accomplished what was expected or desired the trustees of the hospital are in doubt.

The trustees have been fortunate in having Miss Fell continue in her appointment of superintendent and the management has been very satisfactory to all concerned. The hospital has been taxed to its capacity all through the year and the service rendered has been exceptionally free from criticism.

With the advent of 1920 new conditions confront us. As is well known, as a result of public meetings it was decided that the citizens of the town, recognizing the need of a local hospital, would support an effort to secure additional room and accommodation at the hospital. A committee was chosen to take the matter in charge and contributions were solicited.

Plans have been secured looking to the erection of a building specially designed for hospital uses, a modern building for the heating plant and other conveniences, and it is expected that work upon the same will begin this spring. Pledges to an amount equalling the construction cost have been secured and if the plans made carry through, the coming year will witness the establishment of a well designed and commodious hospital equipment.

The matter of endowment has not been considered. In view of the cost of operation as compared with receipts this item is fully as important as the new construction and unless provided for will develop a serious condition.

The financial report of the Treasurer follows and should be carefully examined. It shows that while the service rendered has been larger in amount than ever before, nevertheless the increase has not kept pace with the increased expense.

Respectfully submitted,

Wm. G. Moseley, *President,*
For the Trustees.

ASSESSORS' REPORT

In making our annual report for the year 1919 we wish to state that we were confronted with several problems, brought about by the war, that made it impossible to maintain a low tax rate.

The increased costs in all the State, County, and Town departments, together with special State and County Taxes and with the decreased amount in new property, all went to bring about the highest rate we have ever had and whereas such a condition was forced upon us we were more fortunate than many other surrounding cities and towns.

Conditions for 1920 have a much more promising outlook as far as gain in new property is concerned, but such will be required to offset the constantly increasing cost of all Town and State departments.

We feel that the time has arrived, due to the new condition of the real estate market, and the demand for both old and new property, that a general re-valuation of the town should be made, based upon present conditions. The importance of this can be realized when we consider that the ordinary house built five years ago for about $4,000, cannot be produced today for less than $6,000 and when the one of today is assessed at a fair market value, namely $6,000 the one of five years ago which at the time was assessed at $4,000, and which is equally as good as the one built under the present conditions, is out of comparison in the matter of assessment.

It would not be expected that the Assessors would try to follow the present market in such matters, for it seems that the high prices of today cannot be accepted as permanent, but it is safe to say real estate will not drop back to the values of a few years ago.

This holds good in the question of land values also but not to the same extent as in the matter of buildings.

It is therefore necessary that the whole matter be given careful study and a new valuation be made of property in the town.

In connection with this question we wish to state that another problem before your Board this year is the matter of making new valuations in the High Rock Street section.

This in itself calls for considerable time and thought in order to properly assess the many tracts of land that have been benefited by the reconstruction of High Rock Street.

The new law in regard to the five dollar poll tax that is to be levied for the first time this year, involves a great deal of work, four different lists are to be made and considerable time given to the matter of passing on the many claims that will be made for exemption from the same.

We feel that we must also now take up the work on our Block System which has not received any attention since the outbreak of the war, and as the last two years have brought an unusual number of changes in property owners, a great deal of work will be required to correct what we have already had surveyed, as many new owners and subdivisions have been made in the past four years.

This not only calls for considerable work on the part of the engineer but will require a great deal of the attention of this Board in furnishing the proper facts and records.

Notwithstanding the great increase in the costs of State, County and Town, which necessarily tend to produce a high tax rate, we are encouraged by the present outlook in the line of new property for the year 1920, and we trust that the rate of 1919 was the highest point to be reached and that we shall by degrees be able to return to a normal rate.

George L. Kingsbury,
William F. Casey,
Henry Godfrey, Jr.

TOWN OF NEEDHAM

ANNUAL REPORT

OF THE

BOARD OF ASSESSORS

FOR THE YEAR 1917

BROOKLINE
THE RIVERDALE PRESS: HARVARD SQUARE
1918

ASSESSORS' REPORT*

The Board of Assessors submit the following report for the year 1917. In the making up of the tax levy we were confronted at the start by an increase of town appropriations over 1916 of $9,280.78 and also an increase in State and County taxes of $5,750.75, making a total increase of $15,-031.53 to be met by taxation in 1917. As will be seen by the table of aggregates we find a gain in the value of real estate of $296,260 over 1916. We are unable to state the amount of personal property valuation, except as assessed locally by your Board owing to the new income tax laws. We have assessed on a valuation of $1,209,805, showing a decrease over 1916 of $935,700, but this sum was offset by $17,319.02 in taxes to be received from the state, and we are pleased to note that we have been able to keep the rate $18.00, the same as for 1916. We believe the new income tax laws to be a success, for we know that many of our people have filed lists, both with the state and the town, from whom in former years no returns were received, and the Assessors were obliged to try and determine a person's income by the dooming process, which usually resulted in dissatisfaction both to the tax-payer and the Board of Assessors. We have decided to omit asking the town this coming year for an appropriation of $500.00 for the Block System, which has been granted annually for the last five years and has been a great help in our Department, but which we believe owing to the stringency of the times can wait over for another year.

Respectfully yours,

William F. Casey,
George L. Kingsbury,
Henry Godfrey, Jr.,
Board of Assessors.
